

## ABOUT US

Samarth Biorigins LLP is a research-driven Nutraceutical Company, promoted by professionals from the field of Medicine, Pharmaceuticals, and Biotechnology. The company has set out with the objective of delivering novel, effective nutraceuticals in the form of better bioavailable, safer, and cost-effective solutions.

## WHY US

1. We source and use the best quality ingredients for our preparations.
2. We provide technology solutions to all kinds of ingredients (lipophilic, hydrophilic, amphiphilic) to make them better presentable.
3. We make sure all our ingredients go through the designed bettering process (liposomisation/ micellization/ encapsulation) to come out as super specialty ingredients.
4. We understand the needs from a formulation point of view, hence can customize the solutions to provide desired blends or value-added ingredients.

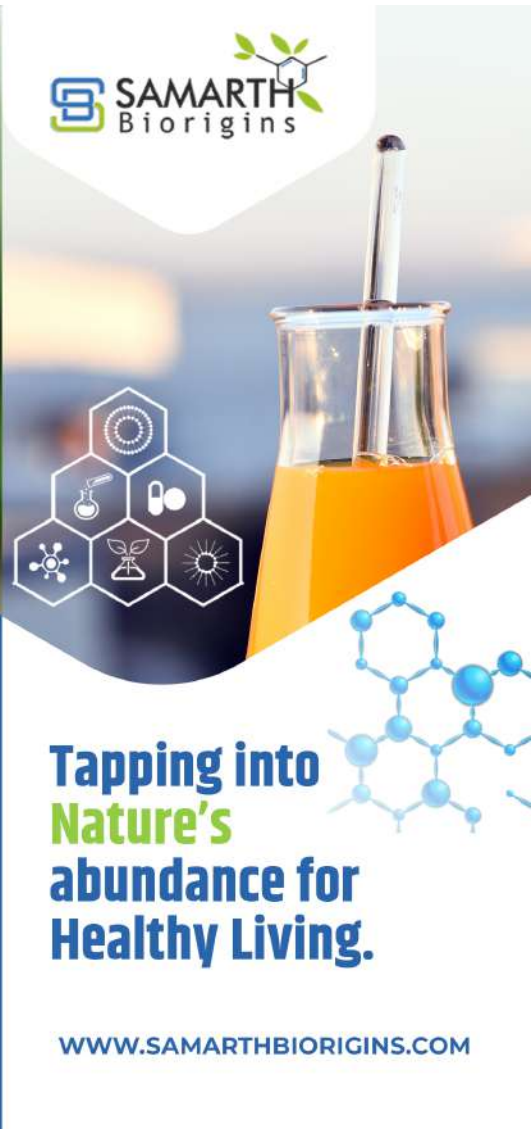

We believe in the powerful synergy of Science and Nature.

## Technology Platforms

### LIPODUO™ TECHNOLOGY

Dual cutting-edge technologies come together to maximize ingredient potential

LipoDuo™ Technology protects the active ingredients by encapsulating them in liposomes and stabilizes them by lyophilization. It ensures stable, intact, and better bioavailable ingredients which function to their full potential to give maximum benefits.

### MICELLTRICK™ TECHNOLOGY

Finest ingredients at their best and protected by a nest.

In this technology lipophilic active nutraceutical ingredient is dispersed into micelles and then entrapped into a matrix. This process makes the preparation readily water dispersible and presentable as a nanoparticulate substance with uniform distribution in size.

### ENCAPSET™ TECHNOLOGY

A compact suit to pack vital nutrients

Encapset Technology is designed to load maximum nutrients (extending more than 85%) with the benefits of particle size reduction, enhanced encapsulation, and better bioavailability. This technology uses natural lipids and surfactants to encapsulate the actives like a shell, which increases the dispersion capacity and improves

#### APPLICATIONS

- TABLETS
- CAPSULES
- SYRUPS
- GUMMIES
- EFFERVESCENT
- TOPICAL GEL
- BEVERAGES

## OUR PRODUCTS

### LipoDuo™ Lactoferrin

(Freeze-dried Liposomal lactoferrin)

#Iron deficiency anemia #Anemia of Inflammation #Anti-viral  
#Antibacterial #Anti-inflammatory #Gut health

### LipoDuo™ Glutathione

(Freeze-dried Liposomal glutathione)

#Master antioxidant #Skin care  
#Neurodegenerative disease #Cardiovascular diseases

### LipoDuo™ Vitamin C

(Freeze-dried Liposomal Vitamin C)

#Immunity booster #Antioxidant #Antiviral  
#Cancer prevention #Skin care

### MicellTrick™ Curcumin

(Matrix bound Micellar Curcumin)

#Immunity booster #Anti-cancer #Bone health  
#Anti-inflammatory #Wound healing #Skincare #Heart Health

### MicellTrick™ Coenzyme Q10

(Matrix bound Micellar Coenzyme Q10)

#Heart health #Neurodegenerative diseases #Infertility  
#Antioxidant #skin care

### Encapset™ Curcumin

(Microencapsulated Curcumin)

The high payload of curcuminoids (>85%)

### Encapset™ Coenzyme Q10

(Microencapsulated CoQ10)

High payload of Coenzyme Q10 (>85%)

### Nurturon™ Cerebroprotein Hydrolysate

(Enzyme hydrolyzed fraction of Cerebroprotein)

#Neurodegenerative diseases #Brain Injury #Stroke  
#Memory and Learning
