

Full hair and immaculate skin are a sign of attractiveness, health and vitality. Hair structure and skin texture change over the course of a person's life. An optimal supply of nutrients is particularly important, as hair growth begins at the hair root in the skin.

Our food supplement MenFolliX contains biotin, selenium and zinc that contribute to the maintenance of normal hair. Riboflavin, niacin, biotin and zinc contribute to the maintenance of normal skin. Vitamin C contributes to normal collagen formation for the normal function of skin.

Growth and renewal is possible through cell division. Vitamin D, vitamin B12, magnesium and zinc have a role in the process of cell division. Our unique formulation uses all the micronutrients mentioned in a high quality to ensure very good bioavailability.

Our advanced formula harnesses the power of the patented Annurca Apple extract, renowned for its remarkable properties that promote healthy hair maintenance. The special Annurca apple grows in the Campania region of southern Italy. The unmistakable flavour and composition of polyphenolic compounds is unique. The ingredient ANNURTROFIL® produced using patented technology is characterized by a very high phytocomplex, especially procyanidin B2.

MenFolliX is specifically designed for men. Experience the vitalising effect - the included vitamin C, thiamine, riboflavin, niacin, pantothenic acid, vitamin B6, biotin, vitamin B12 and magnesium supports the energy metabolism.

Product information of product sample MenFolliX
