# GMP DMF

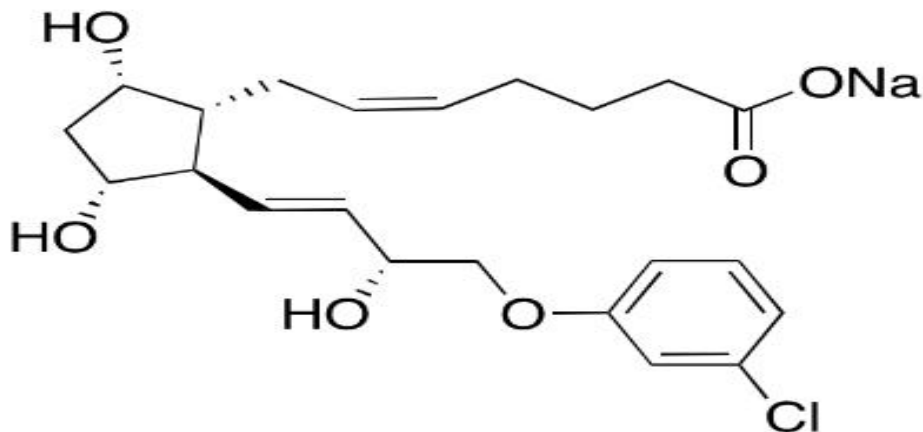

## D-Cloprostenol sodium

## CAS NO:62561-03-9

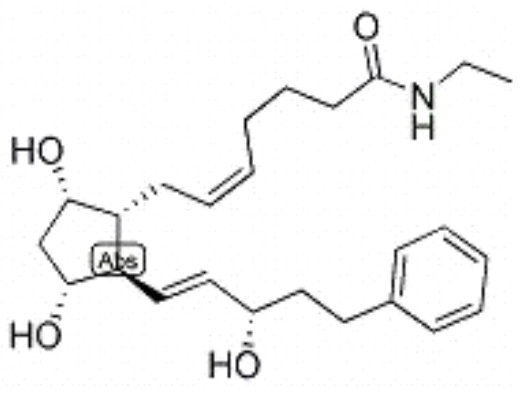

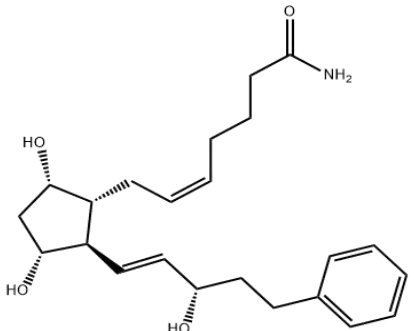

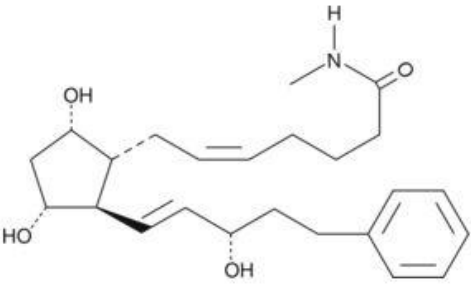

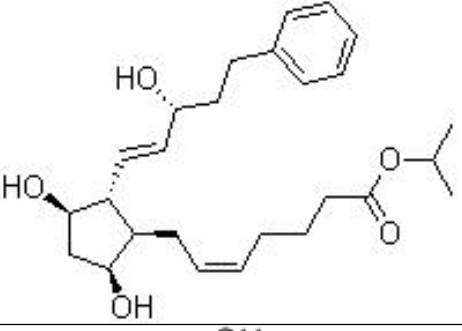

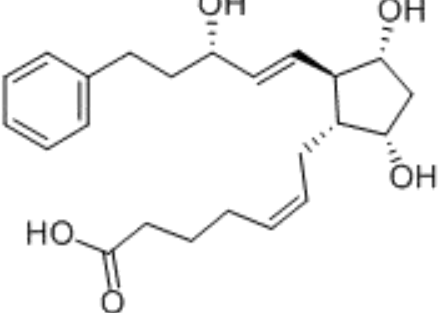

## DL-Cloprostenol sodium

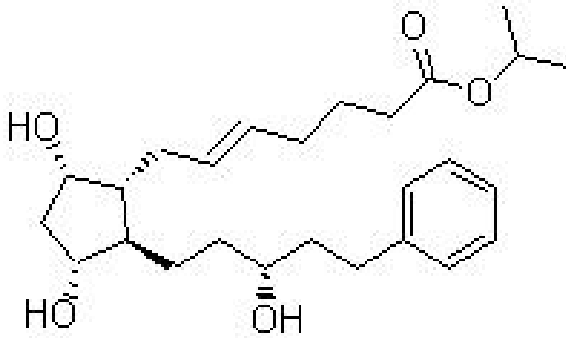

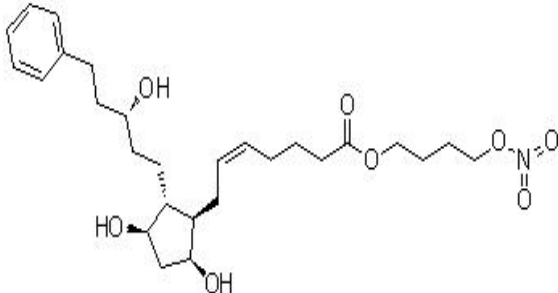

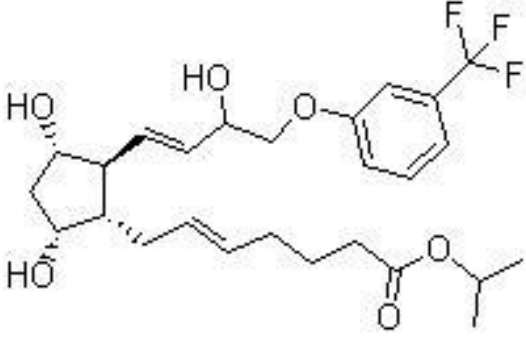

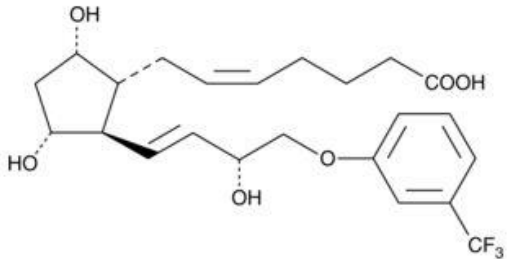

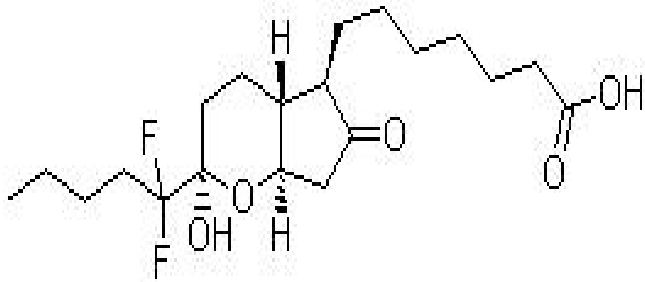

## CAS NO:55028-72-3

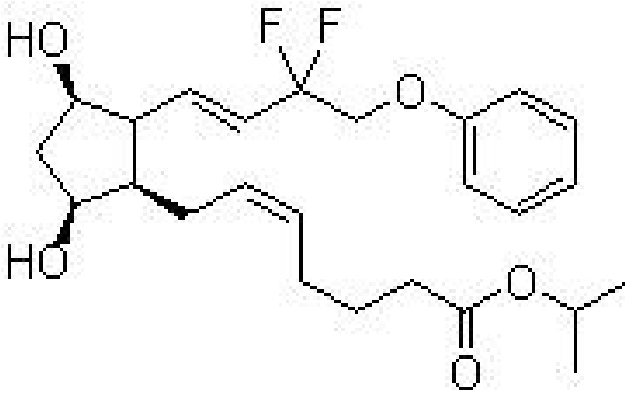

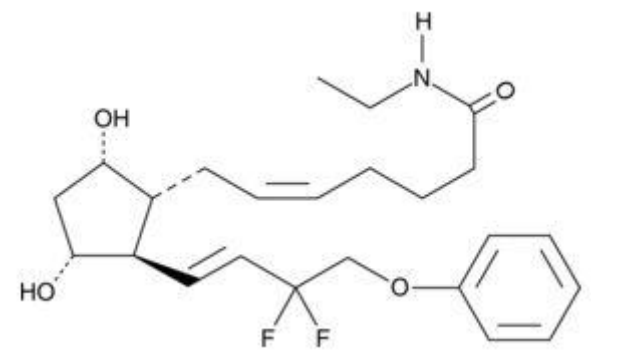

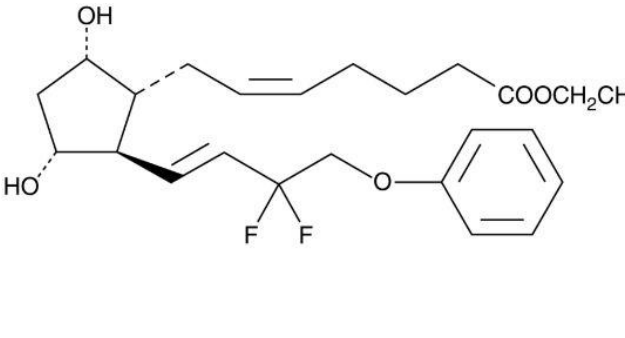

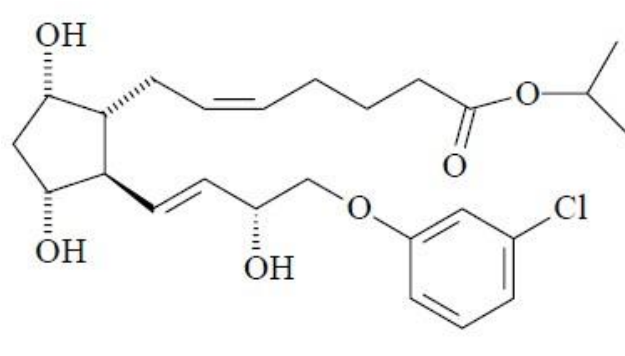

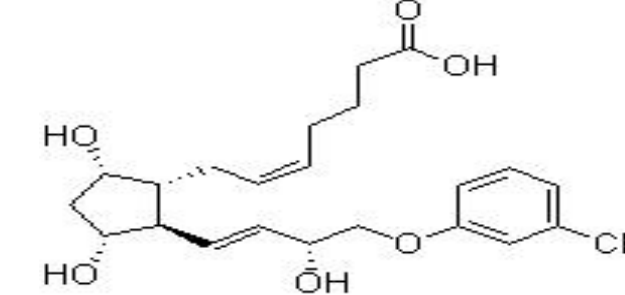

Bimatoprost	155206-00-1	 <p>Chemical structure of Bimatoprost, showing a cyclopentane ring with two hydroxyl groups, a propyl chain with a double bond, and a side chain with a phenyl group and an amide group.</p>
Bimatoprost amide	155205-89-3	 <p>Chemical structure of Bimatoprost amide, showing a cyclopentane ring with two hydroxyl groups, a propyl chain with a double bond, and a side chain with a phenyl group and an amide group.</p>
Norbimatoprost	155206-01-2	 <p>Chemical structure of Norbimatoprost, showing a cyclopentane ring with two hydroxyl groups, a propyl chain with a double bond, and a side chain with a phenyl group and a methyl amide group.</p>
Bimatoprost isopropyl este	130209-76-6	 <p>Chemical structure of Bimatoprost isopropyl ester, showing a cyclopentane ring with two hydroxyl groups, a propyl chain with a double bond, and a side chain with a phenyl group and an isopropyl ester group.</p>
Bimatoprost acid	38344-08-0	 <p>Chemical structure of Bimatoprost acid, showing a cyclopentane ring with two hydroxyl groups, a propyl chain with a double bond, and a side chain with a phenyl group and a carboxylic acid group.</p>

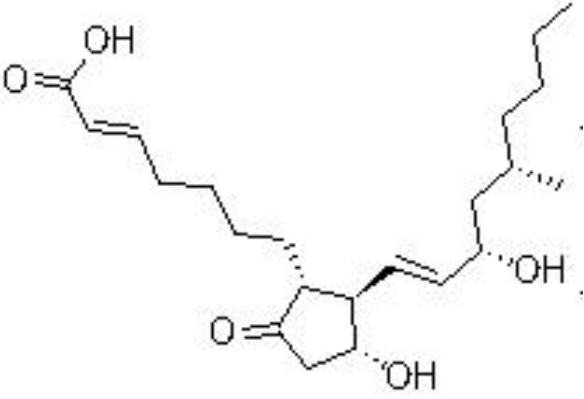

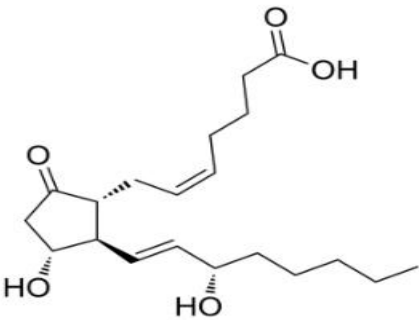

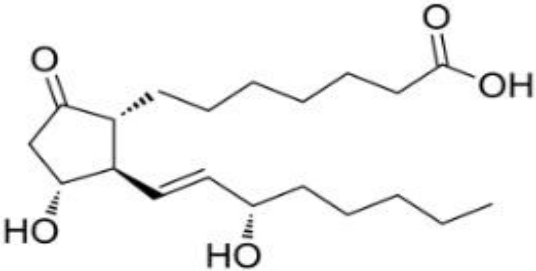

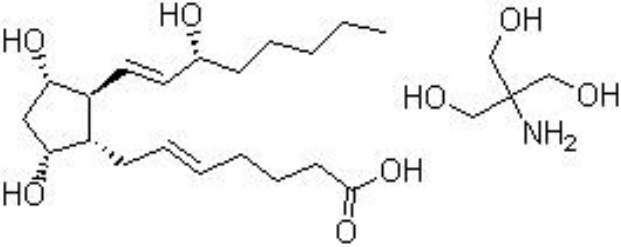

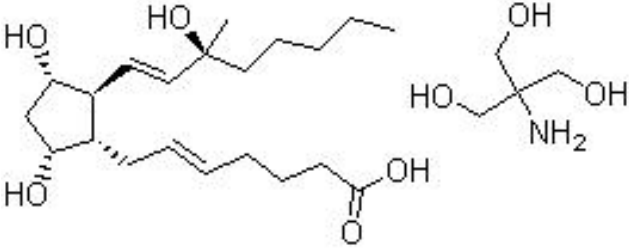

Latanoprost	130209-82-4	
Latanoprostene bunod	860005-21-6	
Travoprost	157283-68-6	
Travoprost Acid	54276-17-4	
Lubiprostone	136790-76-6	

<p>Tafluprost</p>	<p>209860-87-7</p>	
<p>Tafluprost ethyl amide</p>	<p>1185851-52-8</p>	
<p>Tafluprost ethyl ester</p>	<p>209860-89-9</p>	
<p>D-Cloprostamol isopropyl ester</p>	<p>157283-66-4</p>	
<p>Cloprostamol</p>	<p>40665-92-7</p>	

Products protected by valid patents are not offered for sale in countries where the sale of such products constitutes a patent infringement and its liability is at buyer's risk.

Limaprost	74397-12-9	
Dinoprostone	363-24-6	
Alprostadiol	745-65-3	
Dinoprost Trometamol	38562-01-5	
Carboprost Tromethamine	58551-69-2
