

LIPCOLAC

FOR A HEALTHY HEART

Clinically proven probiotic for cardiovascular wellness and heart health support

Worldwide, 7.2 million people die from heart disease every year. It is estimated that 45% of deaths with heart diseases are associated with dietary factors.

Probiotics are capable of producing an enzyme called bile salt hydrolase (BSH) which causes a decrease in the absorption of cholesterol in the bloodstream. *Lactobacillus salivarius* UBLS-22 is a unique, well-documented, and proven probiotic for lowering LDL cholesterol and increasing HDL cholesterol levels thereby keeping the heart healthy.

INDICATIONS & CAUSES

Cholesterol is essential for life, however, too much of it can increase the risk for heart disease.

Cardiovascular diseases are often associated with

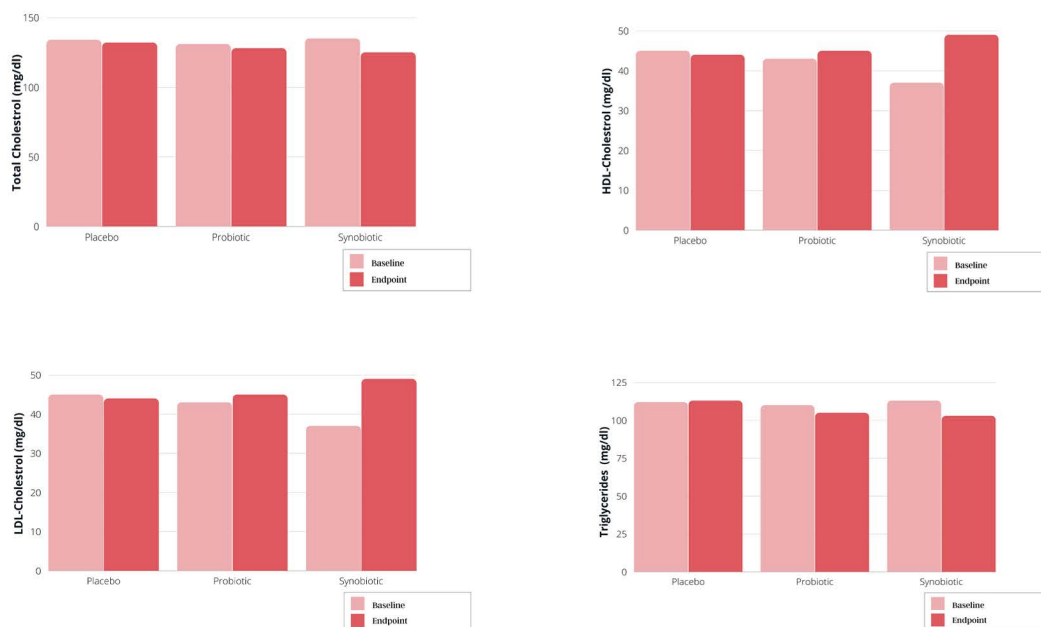

- Hypercholesterolemia
- Intestinal mucosal ischemia
- High fat and fiberless diet
- Diabetes
- Ischemic colitis
- Poor lifestyle

USAGES AND BENEFITS

- Promotes heart health
- Helps reduce LDL
- Improves HDL levels
- Helps reduce total cholesterol and triglyceride levels
- Promotes digestive health
- Replenishes good bacteria in the gut

CLINICAL STUDIES

SERUM LIPID PROFILE OF SUBJECTS SUPPLEMENTED WITH L.SALIVARIUS UBLS-22

Probiotic- *L.salivarius* UBL S22; Synbiotic- *L. salivarius* UBL S22 + Fructo-oligosaccharide (Rajkumar et al., 2015)

After 6 weeks of supplementation, a significant ($P < .05$) decrease in total cholesterol, LDL, and TGs accompanied by an increase in HDL was observed.

COMPOSITION

Each capsule contains
Lactobacillus salivarius UBLS-22 - 2 billion cfu

DOSAGE

Adults: 1-2 capsules daily
