

unicorn

Innovating always...

An ISO 9001-2008 certified company

About Us

Since its incorporation in the Year 1964, **Unicorn Petroleum Industries Private Limited** has come a long way, in its quest for customer centric quality products and excellence in services without compromising on its values, ethics & beliefs.

Starting from its humble origins at Mumbai, the group now, has two manufacturing plants around Mumbai, well equipped with state-of-art manufacturing, testing and storage facilities, to ensure consistent batch production and finished product quality, as required by regulatory markets.

We believe in Total Customer Satisfaction and take pride in tailor-making our complete range of petroleum specialties viz. Petrolatums, Mineral Oils and Wax Specialties to suit the end requirements and stringent specifications of our valued customers.

Given our impeccable quality adherence, over past five decades, we enjoy the patronage of majority of the world's most recognisable top notch pharmaceutical, cosmetic & FMCG companies, whose loyalty is a testament of our time tested, product quality

With exports to more than 40 countries, we specialize in providing consistent quality products, which meets the most stringent quality requirements of various pharmacopoeias.

Along with our well-experienced, trained & qualified personnel, we aspire to exceed customer expectations, in-line with our belief "A satisfied customer is our biggest compliment!!" & stand committed to pursue newer horizons.

Mission ▶▶

To strive earnestly to meet the expectations and aspirations of our customers vis-a-vis quality, consistency and compatibility of our products, while maintaining the highest standards of integrity, value and business ethics.

To innovate and develop customer centric products to suit diverse applications.

Vision ▶▶

Become a customer-centric, result oriented organization, with sustainable resources, for over-all self and society development

Be recognized as TREND-SETTERS for setting the standards of excellence in the field of petrochemical specialties in the Indian sub-continent.

Be accountable for our performance and ensure that the commitments and expectations of our valuable customers, stake-holders and employees are met in an ethical, professional manner.

Values

The five pillars on which our organization, as espoused by our management and founders stands are:

Commitment to Customers

We pride ourselves in being a customer oriented organization, committed to exceeding the expectations and aspirations of our esteemed customers. We always strive to achieve "CUSTOMER DELIGHT" by offering perfect solutions to their needs and rendering efficient services and quality products always.

Pledge to Quality

Quality is synonymous with "UNICORN" and we, as an organization, always strive to maintain the highest standards of quality and consistency in all our finished products, at all cost, without compromising on the raw materials, manufacturing processes or packaging elements whatsoever.

Ethical & Fair Business Dealings

Considering our industry mix, wherein malpractices are rampant, we always adhere to ethical practices and carry out all commercial transactions in a very transparent, professional manner.

Integrity & Adherence to Government Laws

Each and every employee of the company operates with the highest standards of Integrity, Loyalty and Sincerity, in accordance with the State Regulations.

Safety, Health & Environment Consciousness

The Company continuously implements and reviews systems, plant and operation efficiencies, designed for maximizing employee safety, health and well-being, while maintaining responsibility towards the environment by minimizing pollutant and effluent discharge levels.

Infrastructure

Fully equipped chemical testing laboratory approved by FDA with duly calibrated instruments for in-house testing of raw-material, in-process samples and finished product.

Viscometer baths

High- precision
penetrometers

State-of-art FDA, GMP and ISO approved manufacturing facility designed keeping cosmetic / pharmaceutical applications in mind. Our manufacturing facility has been approved by most of the multinational pharmaceutical companies. Combined manufacturing capacity of 40000 TPA of petroleum specialties.

Cleanroom manufacturing area

Products ▶▶

Petroleum Jelly

Our customized *Unijell* brand of Petroleum Jellies range from snow-white, golden yellow to amber-yellow grades and are suitable for use in cosmetic, pharmaceutical and industrial applications. We provide high purity, pharmacopoeial grades as well as technical grades for less critical Industrial applications.

Mineral Oils

Our *Unimin* range of Mineral Oils are bright, clear, transparent mixture of liquid saturated hydrocarbons, complying with international specifications for quality and the purity requirements of various pharmacopoeias making them suitable for use in skin, foot-care, hair-care and personal-care formulations as well as other multi-industry applications.

White Oils

Our *Unioil* range of White oils, though less refined than their pharma counterparts, have excellent thermal & chemical stability, with high flash & fire points, making them suitable for a range of applications, across various manufacturing sectors including cosmetic, pharmaceutical, food, polymer and specialty chemicals etc.

Beeswax

Beeswax is a 100 % natural product purified and bleached for use in FMCG and skin-care formulations. Our manufacturing process ensures the removal of impurities for crude beeswax while retaining its emollient, soothing and softening properties.

Emulsifying Wax

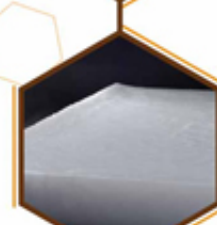

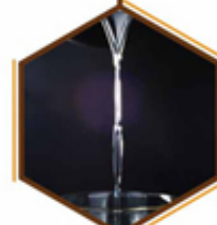

Emulsifying wax is a type of self-emulsifying ingredient used primarily in the manufacturing of ointments, creams, lotions, and other beauty products that have both water and oil phase.

Paraffin Wax

Hard Paraffin Wax is widely used in the candle industry for making premium quality candles and skin-care, foot-care formulations in the pharmaceutical and cosmetic industry.

Microcrystalline Wax

Due to its superior elastic and oil-retaining property, Microcrystalline Wax is widely used in creams, ointments and other formulations in the pharmaceutical, cosmetic and FMCG industry.

Quality Policy

We shall manufacture high standard quality products with appropriate equipment, trained manpower, cleanroom environment and scientific methods to the satisfaction of our customers. We shall strive to achieve leadership position in manufacturing & supply of various petroleum specialties along with continuous innovation and product development, which shall result in ascertaining and enhancing our image as a quality conscious manufacturer.

We commit to be an organization which:

- Meets all the regulatory requirements.
- Adheres to Current Good Manufacturing Practices and Good Laboratory Practices.
- Implement and continually improve upon international standards IEC 17025:2005 & ISO 9001:2008.
