Founded in **1985** under the name RAM, manufacturer of sterile, single use medical devices. RAM was the **first company worldwide to produce disposable multi-injectors for MESOTHERAPY (MESORAM®)**.

In **1988** RAM becomes **RI.MOS. Srl** adding a full range of disposable gynecological products (**GINRAM®**).

Then the Company grew quickly by implementing more product ranges in the disposable medical devices field.

1999: launch of **FERTIRAM®**, disposable devices for artificial insemination and assisted fertilization.

2000: acquisition of **PAIS**, custom-made stainless steel needles, not for medical use.

2003: addition of **AGORAM®**, disposable biopsy needles for bone and soft tissues.

HypermiX[®]

In **2005** the focus broadened towards a new target: wound treatments.

The first step was taken by researching and testing a herbal based treatment for **wound healing** in the veterinary field.

Hypermix[®] was launched in **2008**, a product for animal use based on the synergy of two plants: **NEEM** and **ST. JOHN'S WORT (Hypericum)**.

Hyperoil®

Hyperoil® was launched in 2010 as **herbal based, multi-pursuit, wound healing ointment and medicated gauzes** for all kinds of skin lesions, for human use.

Class II b medical device – CE Certified

2012 was a challenging year:
a dreadful earthquake shattered Mirandola
and the district around it.

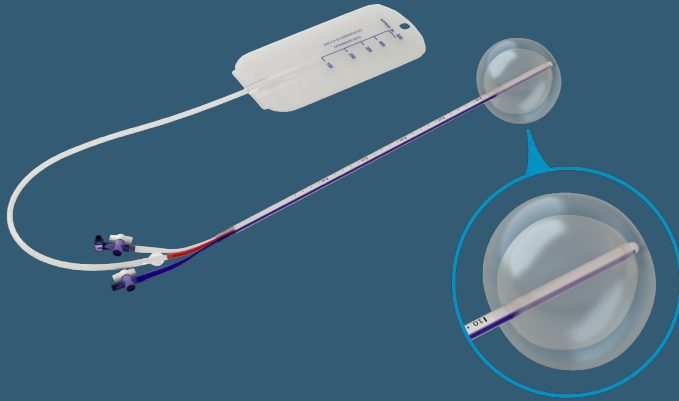

The Company promptly reacted, not letting
be overwhelmed by the calamity.

**WE ACQUIRE THE
STRENGTH WE
HAVE OVERCOME**

Ralph Waldo Emerson

2018 - Post-partum balloon for the treatment of uterine bleeding (PPH)

METRASTOP Postpartum Balloon

innovative medicated scaffold

RI.MOS. develops and improves the design of products in cooperation with physicians and researchers.

R&D and engineering are carried out internally and the manufacturing process involves highly skilled operators and suppliers in the manufacturing of medical devices.

RI.MOS. products are assembled by trained operators in ISO 7 and ISO 8 clean rooms.

Domestic market relies on a capillary network of retailers and local dealers.

Export quota represents 50% of the total turnover, with sales managed through distributors located in over 90 Countries.

VISION

To be knowledge driven and caring
