About Alina[®]

Alina[®] is an easy-to-use disposable pen injector platform with variable dosing.

The pen injector's performance, features and intuitive handling are compatible with established therapeutic regimens as well as innovator drug therapies that require a multidose delivery device such as diabetes and weight management.

Features

Compatible with **standard** pen needles

Suitable for **ISO 3mL glass cartridges** & optimized for Stevanato Group's range of glass solutions

Dose indicator, with registered design, for **improved readability**

Removable cap

Dial-back **dose error correction**

Benefits

Ideally suited for
diabetes and weight
management

Visual and audible
feedback for dose setting,
correction & injection

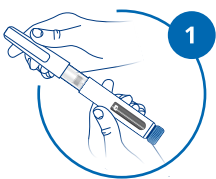

Tested & verified
according to ISO11608
standards

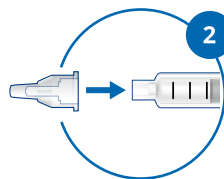

Customization available
for primary packaging &
therapy needs

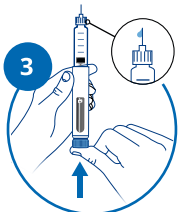

Handling Steps

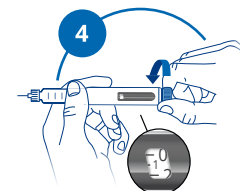

1 Remove cap

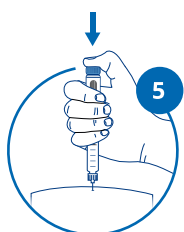

2 Attach the needle

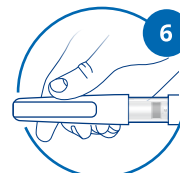

3 Hold the device
upright and prime

4 Turn the dial
to select the dose

5 Inject carefully
into a suitable
injection pad

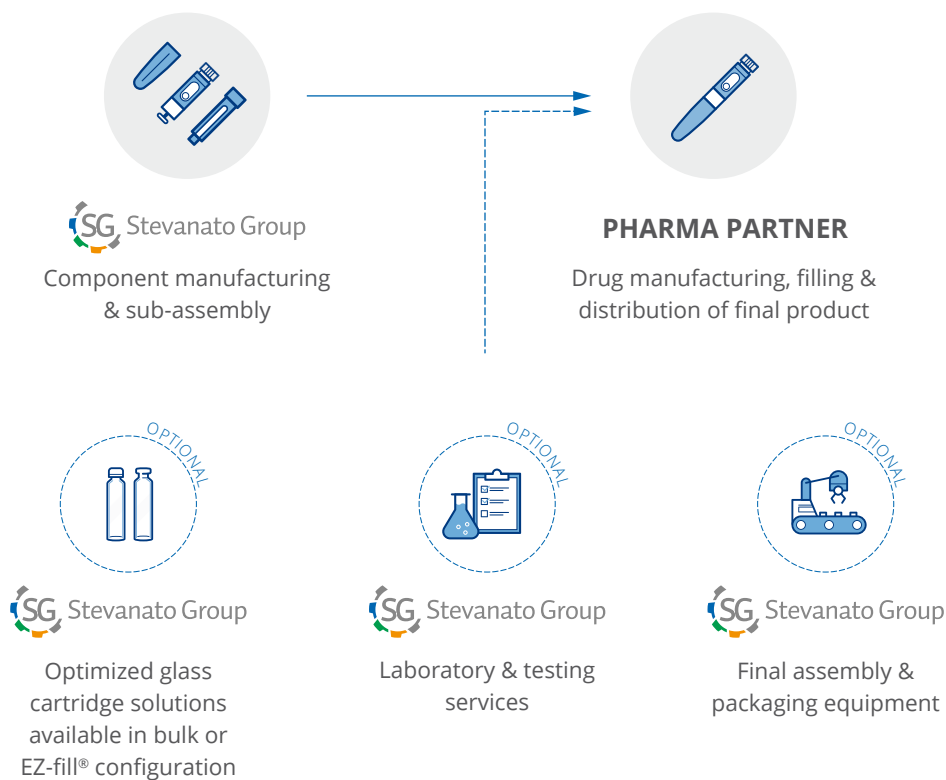

6 Remove the needle
& recap the device

Your Integrated Solutions Provider

Production of Alina® takes place at our state-of-the-art, ISO13485 certified, FDA-inspected manufacturing site in Germany.

We have invested in component tooling, automated sub-assembly equipment and optimized production processes to accelerate product launches and minimize up-front investments for customers.

Additionally, we have a range of optional products and services to further simplify your supply chain.

Headquarters

Via Molinella, 17
35017 Piombino Dese
Padova, Italy
