The name **HELENVITA** is the conjunction of two words with great history and hidden meanings:

HELEN & VITA.

HELEN: The name refers to Helen of Troy, reflecting the Immortal Greek Beauty of Helen, as she was considered to be the most beautiful woman in the ancient world and remains to our days, a reference of the same.

VITA: The Latin word for Life, projecting Health & Well-Being, as an undisputed privilege of mankind through the centuries.

In that sense, our brand **HELENVITA**, honoring its name origin, consists of a never ending range of innovative dermocosmetics & food supplements solutions, that highly contribute to people's Well-Being, from Health to Beauty!
