

Our trusted services

**Supporting the global healthcare industry
to create a healthier tomorrow.**

CPhI Special Digest Version 2021

Our trusted, secure services

Bushu Pharma empowers the flawless manufacture of your most important products. We are one of the leading contract manufacturers of pharmaceuticals, as well as medical devices and drug & device combination (hybrid drugs). With more than 22 years as a contract manufacturer, we are constantly focused on how to improve our ability to deliver quality products year in and year out. Based on our successes, we are now proud to have more than 50 commercial partnerships.

Pharmaceutical Manufacture

The trusted, secure manufacturer for pharma businesses. We empower the flawless manufacture of your most important products.

Quality Analysis and Management

We provide Analysis and Technical Transfer services based on the highest Japanese quality standard and GMP certifications globally.

Supply Chain and Gateway to Asia

Reach new markets in Asia and beyond with our end-to-end supply chain expertise, backed by our 20+ years of experience as a CMO.

Achievements to support trust

With GMP certification in more than 40 countries and nearly 200 staff dedicated to quality assurance and control, Bushu Pharma expertly handle technical transfer from leading pharmaceutical companies around the world. Having to face more than 40 client and regulatory audits per year, we have gained value insight over the years, which we employ to offer flawless technical development of products and the optimization of formulation concepts.
