

# CORDENPHARMA COLORADO / BOULDER API FACILITIES

CordenPharma Colorado and CordenPharma Boulder focus on the development and cGMP manufacturing of small molecules, peptides, custom lipids and highly potent APIs from laboratory-scale to commercialization. The two facilities are located close to each other in Boulder, CO (USA), 25 miles (40 Km) northwest of Denver.

Formerly Roche Colorado and acquired by ICIG in 2011, CordenPharma Colorado, is a world leader in the development and manufacturing of chemically-synthesized peptide APIs and highly active compounds. Corden Pharma Boulder (formerly Pfizer/Hospira), acquired by ICIG in 2017, provides innovative solutions to ensure containment of highly potent APIs, which allow for the safe handling of the most potent compounds developed (OELs of picogram per cubic meters).

Both facilities are fully inspected by global regulatory agencies including, but not limited to, FDA, EMA, and PMDA.

### API Products:

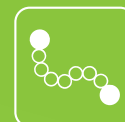

Clinical & Commercial  
API Support Services

### Integrated Supply Drug

#### Product Facilities:

CordenPharma Caponago (IT)  
CordenPharma Plankstadt (DE)

### Related Technology Platforms:

Peptides

Lipids &  
Carbohydrates

Highly Potent  
& Oncology

Small Molecules

## COLORADO / BOULDER FACILITY FACTS

### Core Capabilities

- » Complex synthesis of Small Molecules, proprietary Lipids & Peptides
- » Broad technology & know-how portfolio
- » Industry leader in the manufacture of Highly Potent APIs, Custom Lipids, Small Molecules & Peptides
- » Peptide manufacturing (solid & liquid-phase)
- » SafeBridge® certified Highly Potent API facilities supporting early clinical development to commercialization
- » Regulatory expertise & successful track record in all major markets

### Capacities / Technologies

- » Total facility capacity of 500 m<sup>3</sup> with wide range of reactor sizes up to 18,000 L vessels
- » Broad chemical capabilities (e.g. cryogenic, pyrophoric, chiral chemistry, hydrogenation)
- » Solid-Phase Peptide Synthesis (SPPS) vessels up to 10m<sup>3</sup>
- » Wide range of HPLC columns up to several 100 cm units
- » Large-scale commercial Lipids & Peptides (Multi Metric Ton capacity per year)
- » HPAPI manufacturing containment & engineering
