

URSATEC  
WHEN PRESERVATIVE FREE MATTERS®

# SOFTBREEZER® Presentation

Finished Products

# SoftBreezer® - Based on 3K® technology

Inhaler for gentle breathing

- Soft mist nebulizer
- Pocket size
- Easy to use
- Propellant free
- Extremely fine nebulization
- No batteries needed

# SOFTBREEZER® with 0.9% NaCl

ready to market

Isotonic solution

## Claims

Moisturizes the upper and lower respiratory airways as a supplementary treatment of:

- Colds (e. g. cough or head colds)

- Inflammation or chronic diseases (e.g. hay fever, asthma, COPD, etc.)

- Dry mucous membranes due to reduced humidity e. g. as a result of spending long periods in air-conditioned or heated rooms

Restores moisture to the mucous membranes of the respiratory system, preventing discomfort

Supports the natural cleaning process of the respiratory tract

Provides a noticeably positive contribution in cases of inflammation as well as in cases of increased exposure to dust and air pollution (e.g. caused by dust or tobacco smoke)

Regulatory Status 

Medical Device Class IIa

Suitable for 

Above 6 years

Ingredients

Sodium Chloride, Purified Water
