

Leading air handling solutions provider in India since 2005, offering best-in-class solutions in the HVAC market space

Edgetech Air Systems Pvt. Ltd.

Upscaling & enriching lives for more than 2 decades with the manufacturing of pioneering air handling solutions with unmatched quality standards.

Standing firm on the pillars of integrity, innovation and excellence, Edgetech is driven by the passion to provide clean, breathable air to the world. With a commitment to reduce the planet's energy footprint by contributing towards a sustainable environment for our present and future generations, Edgetech was established in 2005. The organisation has grown specialising in the end-to-end production of advanced quality, next generation Air Handling Systems.

Edgetech harnesses advanced technology fuelled by innovation across its products and processes. Stringent quality control, high quality equipment and efficiency focussed techniques have enabled us to create an enviable range of award-winning products for all kinds of HVAC applications.

Untiring efforts, relentless research and a customer-centric approach empowers us to deliver best in class solutions mapped to the demands of the evolving industry and a mission to serve humanity by providing the most technologically advanced air handling solutions across the globe.

Explore the wide range of high performing &
award-winning air handling solutions
combined with cutting-edge technology,
unparalleled product engineering
& sustainability.

e₃ Next Gen Air Handling Units

**Smart Air Handling Unit
with EC/Plug/DIDW fans**

**Air Purification
System**

**Cleanroom
Air Handling System**

Evaporative Cooling Units

Single Stage Double Stage

Ventilation Unit

Fresh Air Exhaust

Vertical range of Air Handling Unit

- Vertical Type Standard AHU
- Packaged Vertical AHU (Compact footprint)
- Raised Floor AHU

Fan Coil Units

Universal Decorative Fan Coil Unit

- Single Skin
- Double Skin
- AC Motor
- BLDC Motor
- Factory Fitted Valve Package

High Wall Fan Coil Unit

Chilled Water Cassette

Ventilation Systems for Kitchen and Hot Air Streams

Ceiling Suspended Units

- Compact Low Height/Noise Unit
- Belt Driven
- Direct Driven
- With EC Fans

Horizontal range of Air Handling Unit

Horizontal Type
Double Tier Floor
Mounted Unit

Horizontal Type
Floor Mounted
Unit

Heat Recovery Units

- Cross Flow Type
- With Heat Wheel
- With Heat Pipe
