

# **INNOVATIVE 1000 MG MICRONIZED, PURE DIOSMIN FOR CHRONIC VENOUS INSUFFICIENCY AND HAEMORRHOIDS**

## **Why Dimotec?**

- **OTC drug** with well-established use based on clinical experience
- **Micronized** pure diosmin
- Film-coated tablets: **easy-to-swallow**
- **Daily 1x** 1000 mg
- Manufactured under **GMP**
- The highest amount of diosmin available in one tablet
- Registered first in Europe via MRP
- 10 approved MAs already
- Available for licensing under private label or distribution

## Why diosmin?

- **Natural source** (citrus peel extract) flavonoid
- Key benefits:

**3 effects**

- 1** *It has an anti-inflammatory effect*
- 2** *Improves lymphatic drainage*
- 3** *Increases venous tone, venous elasticity and capillary resistance*

## Why 1000 mg?

- **Daily recommended dose** for adults is 1000 mg (for CVI)
- Increased **patient compliance** with a good safety profile
- For haemorrhoids, the once-daily 1000 mg dosage is also **more comfortable**

## Diosmin vs MPFF

- MPFF and pure micronized diosmin are both of **natural origin**
- Both contain **additional flavonoids** (diosmetin, hesperidin, linarin and isorhoifolin) as impurities
- The amount of these flavonoids is less than 8.5% in pure diosmin
- Therefore, pure diosmin is a **modern API** with **fewer impurities**
