Our Vision

“ To leave a positive footprint on human health by creating an institution that transcends the mortal being!

मानव स्वास्थ्य पर सकारात्मक पदचिन्ह छोड़ने के लिए एक ऐसी संस्था का निर्माण करना जो प्राणीमात्र के अस्तित्व से परे, शाश्वत हो। ”

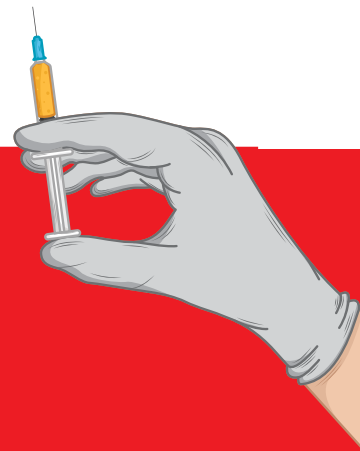

Company Overview

Venus Remedies Limited is a pioneering pharmaceutical company headquartered in Haryana, India, renowned for its unwavering commitment to advancing healthcare through innovation, quality, and global reach. Established with a vision to improve patient outcomes and enhance the quality of life, Venus Remedies has carved a distinguished niche in the pharmaceutical industry.

A Legacy of Excellence

With a history dating back to its inception in 1989, **Venus Remedies** has evolved into a formidable force in the pharmaceutical world. Its enduring legacy is rooted in a steadfast dedication to scientific research, ethical practices, and superior manufacturing standards. The company's innovative approach to drug discovery has yielded a diverse portfolio that spans **antibiotics, anti-infective agents, anti-cancer** medications, and more. Their focus on **critical care** and **oncology products** underscores their commitment to addressing pressing medical needs. The company has cast its global footprint, exporting its high-quality pharmaceutical products to a multitude of countries. With this legacy built on through decades of dedication, the company continues to push the boundaries of pharmaceutical science, making a meaningful difference in the lives of patients worldwide.

Dr. Manu Chaudhary, joint managing director, Venus Remedies, has won the Woman at Work Leadership award by Employer Branding Institute.

The Prestigious international Award QC-100 TQM (Total Quality Management) in Gold Category, at the Century Internal Quality ERA convention held in Geneva 2011

Great Place to Work 2023-2024 Award

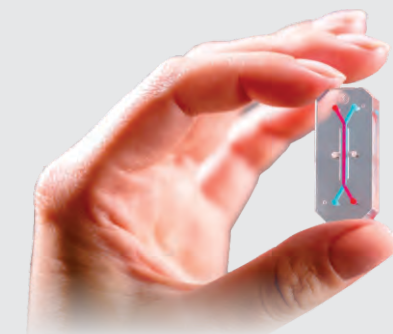

Responsible Export Organization certification

R & D and Other Initiatives

Venus Remedies Limited has now onboarded prestigious AMR Industry Alliance (AMRIA) as a member. **AMR**

Industry Alliance is a group of more than 100 global biotechnology, diagnostics, generics, and research based pharmaceutical companies and associations established to provide sustainable solutions to combat AMR, including by facilitating collaboration between public and private sectors across the world.

First time in India

VMRC has added the Organ-on-a-chip lab. This installation of kidney-in-a-chip model will radically change the way pharmaceutical industry traditionally screen the drug innovation and related toxicity.
