

Contract Manufacturing

About Us

- Nutraceutical manufacturing firm with FSSAI, FSSC 22000, NSF , HACCP and HALAL certifications.
- State-of-the-art facility for end-to-end manufacturing of nutraceuticals products.
- well-equipped temperature & humidity control systems throughout operational area.
- Product offerings as solid oral (coated tablets, uncoated tablets, hard HPMC capsules), liquids (Gel), dry syrups (dry powder syrups), protein & energy bar, and powder formulations.
- Supports customer products with Informed Sports & Informed Choice certifications based on requirement.

"Informed sports" is likely a reference to a certification program that verifies the quality and safety of sports supplements. The program tests products for banned substances and provides consumers with information about what is in each supplement. By choosing products that have received the informed sports certification, athletes and fitness enthusiasts can be confident that they are using safe and effective products that are free from banned substances.

"Informed Choice" is a certification program for sports supplements, which ensures that the products have been tested for banned substances and that the manufacturing facilities have been audited for its ingredients, giving fitness enthusiasts the assurance of high quality and safety standards.
