

COMPANY PROFILE
2023

WHAT WE DO

Aora Health is a nutraceutical research and development company. It creates innovative solutions with targeted benefits offered as a replacement to pharmaceuticals.

AORA'S PRODUCTS PARAMETERS

AORA IS A CERTIFIED COMPANY

INNOVATIVE SME

Valid until December 17th, 2023

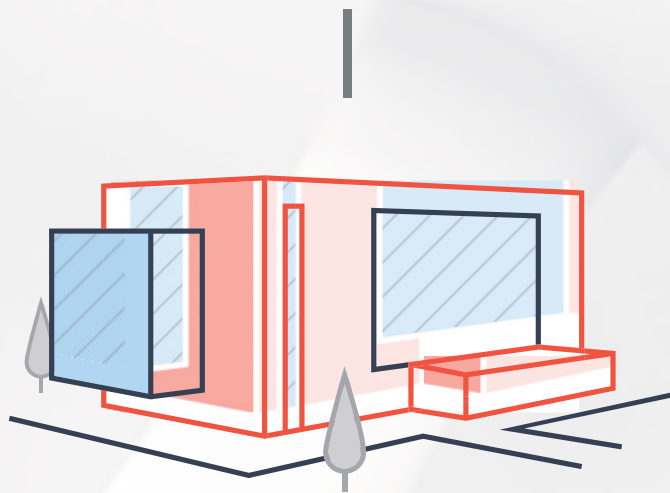

WHERE WE ARE

AORA is located within the “Scientific Park of Madrid”. The park is the result of collaboration of UAM “Universidad Autónoma de Madrid” and CSIC “Consejo Superior de Investigaciones Científicas”

AORA RESIDES IN THE “SCIENTIFIC PARK OF MADRID”

8,400 m² of high-end research & development facility-dedicated to Biotechnology.

CSIC

Consejo Superior de Investigaciones Científicas or Spanish National Research Council.

Universidad Autónoma de Madrid

Together with CSIC, it coordinates CIAL and the Campus For Excellence.

1ST

Largest Public Research Institution in **Spain**

3RD

Largest in **Europe**

OUR SCIENCE NETWORK

Instituto de Investigaciones en Ciencias de la alimentación:
The branch of CSIC dedicated to food research.

Universidad Complutense de Madrid:
The Academic home of Spanish Nobel Prize winners .

Universitat Politècnica de Valencia:
Founded in 1968, it's a leader among Spanish universities in licensing revenues.

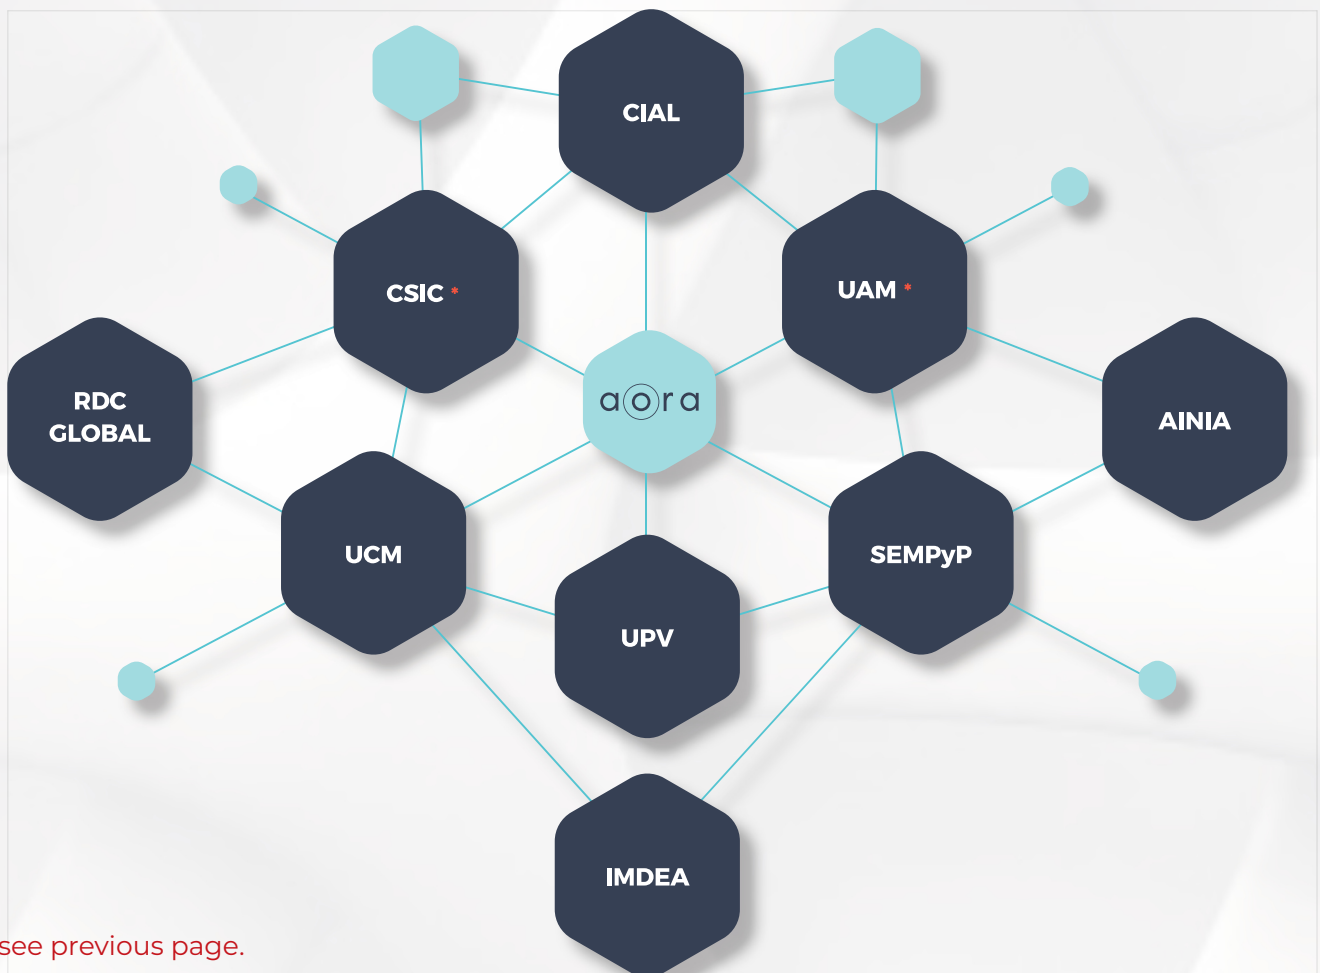

Sociedad Española de Medicina Psicosomática y Psicoterapia:
An institution dedicated to clinical intervention and postgraduate training in mental health with 38 years of track record and over 16.500 professional collaborators.

RDC Global:
Global network of clinical research consultants, based in Australia.

AINIA:
Technology Research Centre with 25+ years of experience. 1 2,000 m of research laboratory space. 1 80 researchers in staff, and over 700 associated companies.

Madrid Institute of Advanced Studies:
Studies business. scientific and technological impact on these seven areas: water, diet energy, materials, nanoscience, networks and software.

AORA'S EVER-EXPANDING NETWORK OF CLINICAL RESEARCH PARTNERS

*see previous page.

OUR STANDARDS

We set unrivalled standards for **nutraceutical** development, comparing to **pharmaceutical** development standards.

STANDARDS		AORA	SUPPLEMENTS	PHARMA
Process Control		Standards	Industry	Industry
RAW MATERIAL	Sourcing only standardised raw material.	✓	✗	✓
	Sourcing only raw material with clinical evidence.	✓	✗	✓
	HPLC testing of all procured raw material.	✓	✗	✓
DEVELOPMENT	High bioavailability.	✓	✗	✓
	Sinergy of ingredients.	✓	✗	✓
	Targeted delivery methods.	✓	✗	✓
FINISHED PRODUCTS	Stability studies on different climate zones.	✓	✗	✓
	Clinical studies.	✓	✗	✓
	High bioavailability.	✓	✗	✓

DOCTOR'S RECOMMENDATION

We engineer our products with the aim of making them fit to be recommended by Doctors.

PRODUCTS TO BE RECOMMENDED AT DOCTOR'S VISITATION

We facilitate this by ensuring that our products are:

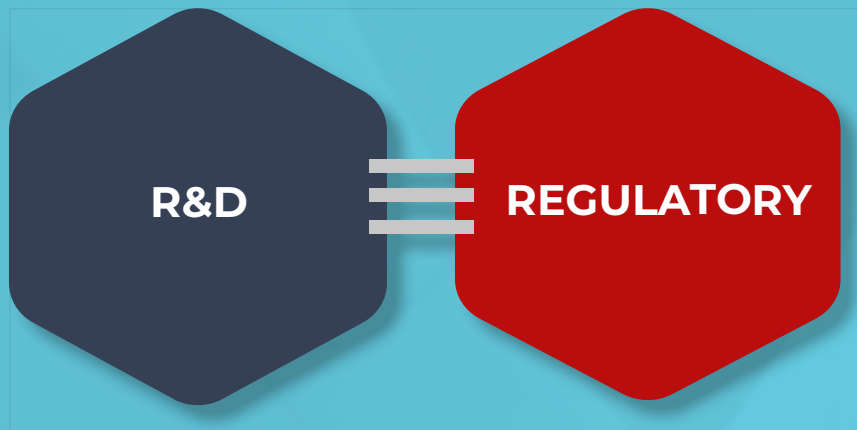

- + Targeting chronic diseases
- + Targeting illnesses where the pharmaceutical alternative is either too aggressive or ineffective
- + Ensuring products' effectiveness to pharmaceutical alternatives
 - + Compiling publications from High Impact Factor* science journals; to be shared with doctors during medical reps's visit

* (HIF) measures the frequency with which an article in a journal is cited in a particular year by the science community.

COMMERCIAL VIABILITY

We have integrated our R&D and our Regulatory Departments to allow a fast and smooth development of products that are both medically and commercially viable.

PROVEN REGULATORY EXPERIENCE

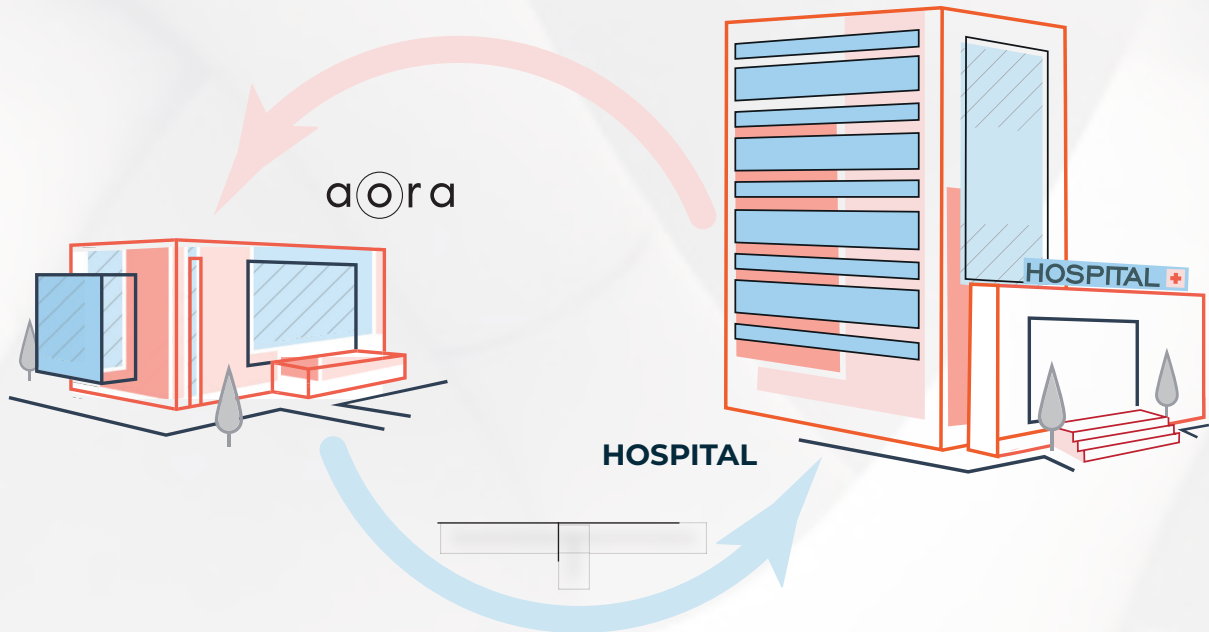

The Benefits:

90 Days or less to prepare a full dossier.
Fast dossier adaptation to new markets.
Fast formulation adaptation to new markets.

R&D CAPABILITIES

AORA has advanced and experienced R&D capabilities.

TURNING IDEAS INTO EFFECTIVE PRODUCTS

We run an external R&D service developing products for other medical companies.

Enteral Nutrition (Reimbursed Hospital Line) is among our star lines, served both to industry and directly to MoHs internationally.

BRIEF BUT FRUITFUL

In 6 brief years, through its science partners, AORA has been able to produce 12 studies, and it is in the process of delivering 3 more.

Sunwave Pharma, Romania

Clinical Longitudinal Study for Enzymax for moderate severe- dispepsia

Politécnica University, Valencia

Clinic evidence of the efficacy of Enzymax in the digestion vs comercial pancreatin

Uppsala University, SWE.

Clinical Study under preparation

UA

Clinical Study under preparation.

Infarma 2018.

Ibero-America's largest pharmaceutical exhibition.

+ Aora Day efficacy in mood and other stress variables.

+ Aora Night as a rest aid and it's antioxidant properties.

CPhI 2018.

Enzymax Forte showcased at the CPhI 2018 Innovation Gallery.

AORA'S PRESENCE

Aora is currently working in more than 30 countries with more than 60 products.

Scientifically proven innovative nutraceuticals

Present in more than **30 markets**

Distributing more than **50 products**

Robust regulatory, which allows for country specific dossiers, following the highest pharmaceutical standards

2023**

ENZYMAX

- Alleviates indigestion problems.
- Recommended for pancreatic problems and as alternative for pancreatin.
- Can be used as prophylactic to indigestion.

ENZYMAX DIGESTIVE RANGE:

Smarter, more complete and in higher concentrations than all pharmaceutical alternatives.

2 x 

Capsule Inside Capsule

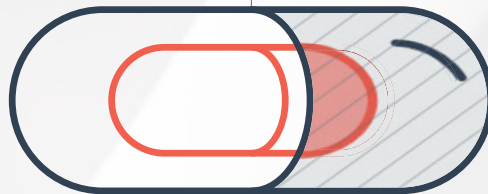

Targeted Delivery Method

 Stomach Release
 Intestinal Release
(Gastro-resistant)

Higher "enzymatic" concentration

Compared to pharmaceutical alternatives

8 x 

A complete enzyme presentation

8 types of digestive enzymes

The Enzymax Range is Halal, with enzymes of non-animal origin.

- ✓ Regulatory Dossier.
- ✓ Clinical Studies.

- ✓ Stability Studies.
- ✓ Equivalence Studies.

ENZYMAX LIPOFOOD FSMP

food for special medical purposes

Effect:

- + For the dietary management of patients with exocrine pancreatic insufficiency.
- + With digestive enzymes, important for digestion and absorption of nutrients.

Format

20 Capsules.
Dual Release System (stomach and intestine).

Ingredients:

- | | |
|--|---|
| <p>Outer capsule:
- 5 enzymes.</p> | <p>Inner capsule:
- 7 enzymes.
- Vitamin A.
- Vitamin D.
- Vitamin E.
- Vitamin K1.</p> |
|--|---|

ENZYMAX FORTE CIC

Effect:

- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.
- + IBS symptoms.
- + Faster action (from stomach).

Format

20 Capsules.
Dual Release System (stomach and intestine).

Ingredients:

- | | |
|---|---|
| <p>Lipase.
Amylase.
Glucoamylase
Alpha-galactosidase.</p> | <p>Proteolytic enzymes:
- Protease 3.0.
- Protease 4.5.
- Neutral Protease.</p> |
|---|---|

ENZYMAX DUO BIOTICS

Effect:

- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.
- + Crohn's disease symptoms.
- + IBS symptoms.
- + Restores intestinal flora.
- + Against diarrhoea (travel, antibiotic etc.).

Format

20 Capsules.
Dual Release System (stomach and intestine).

Ingredients:

- | | |
|--|---|
| <p>Lipase.
Amylase.
Glucoamylase.
Proteolytic enzymes:
- Protease 4.5.</p> | <p>Synbiotic:
- <i>Lactobacillus plantarum</i>.
- Prebiotic fiber (inulin).</p> |
|--|---|

ENZYMAX ANTIGAS

Effect:

- + Prevents gas produced by grains, vegetables and beans.
- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.

Format

20 Capsules.
Dual Release System (stomach and intestine).

Ingredients:

- Alpha-galactosidase.
- Lipase.
- Amylase.
- Glucoamylase.
- Proteolytic enzymes:
 - Protease 4.5.
 - Protease 3.0.

ENZYMAX SINGLE

Effect:

- + Pancreatic problems.
- + Dyspepsia & indigestion symptoms.
- + IBS symptoms.

Format

30 Capsules (intestinal release).

Ingredients:

- Amylase.
- Lipase.
- Glucoamylase.
- Alpha-galactosidase.
- Proteolytic enzymes:
 - Protease 45.
 - Protease 6.0.
 - Neutral Protease.

IMPROVED FORMULATION

ENZYMAX FIRST STRIKE

Effect:

- + Easier digestion, including gluten and lactose.
- + improves nutrient adsorption.
- + Blocks lectin side effects.
- + Counteracts esophageal burn.

Format

30 Capsules (stomach release).

Ingredients:

- | | | |
|---------------|-------------------------|------------|
| Lipase. | Alpha-Galactosidase. | Artichoke. |
| Amylase. | Lactase. | Calcium. |
| Glucoamylase. | Glycine. | |
| Protease 3.0. | N-acetyl L-Glucosamine. | |
| Protease 4.5. | Ginger. | |

ENZYMAX DIGEGLUTEN

Effect:

- + Helps to break down gluten.
- + Complete digestion of dietary protein.
- + Calcium contributes to the normal function of digestive enzymes.

Format

30 Capsules (stomach release).

Ingredients:

Lipase.
Amylase.
Glucoamylase.
Protease 3.0.
Protease 4.5.
Prolyl oligopeptidase.
Calcium.

ENZYMAX REFLUX

Effect:

- + Gastroesophageal reflux (GERD).
- + Dyspepsia.
- + Refractory antacid therapy.

Format

30 Capsules (stomach release).

Ingredients:

Opuntia ficus.
Olea europaea.
Digestive enzymes.
L-glycine.
Sodium alginate.
Sodium carbonate.
Calcium carbonate.

ENZYMAX STICKS

Effect:

- + Dyspepsia and digestion problems.
- + Direct paediatric applications.
- + For children older than 3 years.

Format

20 or 50 Sticks.

Ingredients:

Lipase.
Amylase.
Glucoamylase.
Protease 3.0.
Protease 4.5.

GYNECOLOGICAL

- Covers most women-specific nutritional needs.
- Comfortable use.
- High bioavailability.

GYNECOLOGICAL RANGE:

Complete product range designed especially for women.

Covers most of women's needs, including lactation and pregnancy.

Comfortable use

Alternatives
tablets

Softgel
capsules

+

=

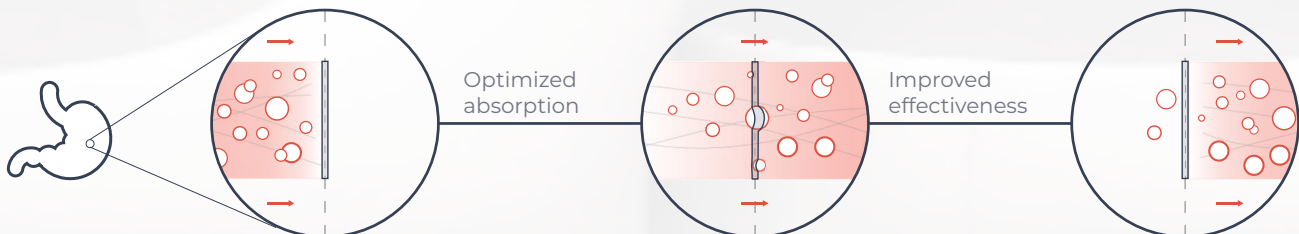

AORA capsules

All-in-one small capsule

- Better taste
- Better digestibility
- Nausea free

Higher bioavailability

- ✓ Regulatory Dossier.
- ✓ Clinical Studies.

- ✓ Stability Studies.
- ✓ Equivalence Studies.

Also available with Quatrefolic

IRON MAX

Effect:

+ Supplementation for iron deficiency.

Atributes:

- + Higher bioavailability than pharmaceutical alternatives.
- + Tasteless and gentle on the stomach.
- + Microencapsulated iron pyrophosphate.
- + No interaction (oxidation) with fats nor vitamins.
- + No colouring of mucosa nor faeces.

Format

30 Capsules.

Ingredients:

Iron.
Folic acid.
Vitamin C.

PREGNAVIE COMPLETE

Effect:

- + Contributes to the baby's brain.
- + Helps cell multiplication and division.
- + Lowers risk of neural tube defects in the developing fetus.
- + Supply of iodine and iron.
- + Supply of lutein for visual and ocular development.

Format

30 Capsules.

Ingredients:

Fish Oil.
- Omega 3, highly concentrated in DHA.
Lutein.
Minerals (7).
Vitamins (12).

CRANBIOTICS

Effect:

- + Innovative targeted dual release solution for urinary tract and vaginal care.
- + Prevents bad bacteria from attaching to inner lining of bladder wall.
- + Builds a healthy intestinal and vaginal bacteria flora.
- + Dual synergistic mechanisms of action.

Format

20 Capsules.
Dual Release System.

Ingredients:

Cranberry.
Vitamin B complex.

WOMEN FERTILITY

Effect:

- + Improves fertility in women with difficulty conceiving.
- + Helps preconception, induces ovulation and the correct maturation of oocytes.
- + Improves fertility in women with polycystic ovary syndrome (PCOS), normalizes ovulation and improves ovarian response.
- + Helps in the development of the embryo and prevents neural tube defects.
- + Adjuvant in in-vitro fertilization techniques.

Format

30 Sticks.

Ingredients:

Myoinositol.
Minerals (5).
Folic Acid.

Arginine.
Chasteberry.
Vitamins (5).

MALE FERTILITY

Effect:

- + Improves male reproductive and sexual functions.
- + Improves sperm health, including increased sperm mobility, ejaculative volume, count, speed and concentration.

Format

30 Sticks.

Ingredients:

L-Carnitine.
Arginine.
Vitamins (6).
Zinc.
Coenzyme Q10.

Acetyl Carnitine.
N-Acetyl Cysteine.
Selenium.
Carotenoids (betacaroten).

HEART RANGE

- Preventative effect of ischemia reperfusion injury on people with coronary risk factor.
- Reduces systolic blood pressure.
- Inhibition of cholesterol synthesis.

HEART RANGE:

Clinically proven to protect the heart during an ischaemia reperfusion.

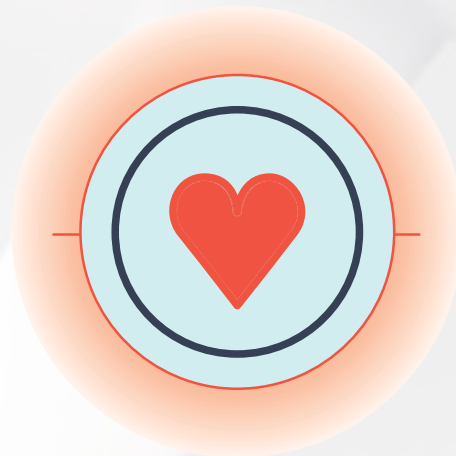

PREVENTION

Before

Lowers blood pressure
Lowers cholesterol
Reduces risk of heart attack

PROTECTION

Protects the heart during an ischaemia reperfusion

RECOVERY

After

Faster recovery

No side effects

- ✓ Regulatory Dossier
- ✓ Clinical Studies

- ✓ Stability Studies
- ✓ Equivalence Studies

AQSTATINS

Effect:

- + Adjuvant therapy for statin treatment.
- + Reduces statin toxicity.
- + Improves tolerance to statin drugs.
- + Alleviates muscle pain, weakness and reduces cramps.
- + Alleviates myalgia, myositis, and myopathy.

Format

30 Softgel capsules.

Ingredients:

Polyprenols (PPs) resin.
Coenzyme Q10.
Alpha lipoic acid.
Vitamin D3.
Vitamin E.

AQLESTEROL PLUS

Effect:

- + Cardioprotective effect.
- + Helps maintain normal cholesterol.
- + Antioxidant and anti-inflammatory effect.

Format

30 Capsules.

Ingredients:

Olive Extract.
ABG10+.
Policosanol.
Plant sterols.
Phyllanthus emblica.
Vitamins B.

AQRECOVER

Effect:

- + Protects the heart & helps recover from ischaemia reperfusion injury.
- + Reduction of systolic blood pressure.
- + Increases flexibility of arteries.
- + Decreases LDL cholesterol levels.

Format

30 Capsules.

Ingredients:

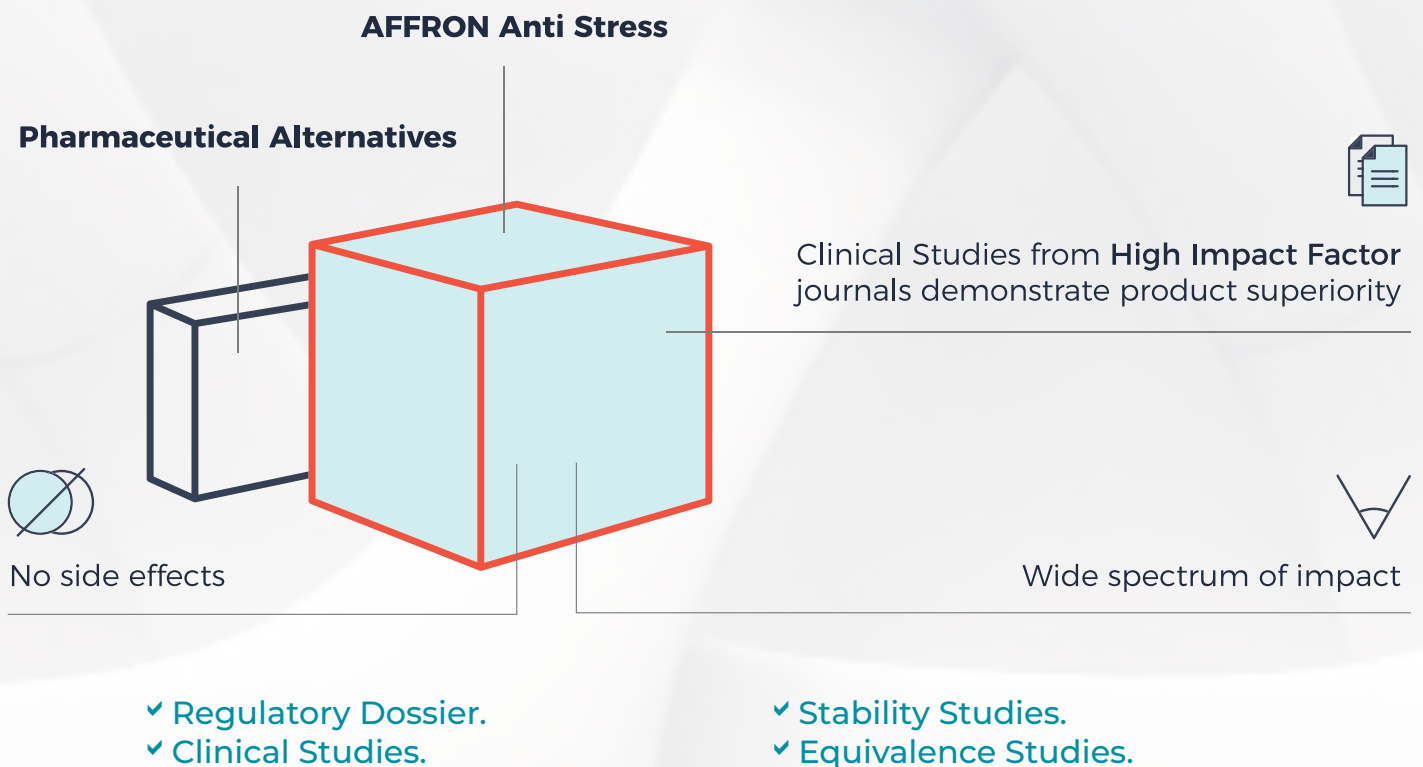

ABG10+.
Vitamin B1.

AFFRON - CNS RANGE

- Reduces stress and anxiety.
- Increases mental performance.
- Increases cognitive functions.
- Increases positive mood.

AFFRON - CNS RANGE:

Superior to pharmaceutical alternatives available on the market.

AQ AFFRON

Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + Increases vigour.
- + Effective adjuvant therapy to antidepressants.

Format

30 Capsules.

Ingredients:

Affron®.
Vitamin B6.
Vitamin B12.
Vitamin D.

AQ AFFRON JUNIOR

RECOMMENDED FOR YOUNG PEOPLE OVER 12 YEARS OLD.

Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + Increases vigour.

Format

30 Capsules.

Ingredients:

Affron®.
Vitamin B6.
Vitamin B12.
Vitamin D.

SAFRONAL

Effect:

- + Help diabetic patients with diabetic neuropathy
- + Helps reduce stress and anxiety in diabetic patients.

Format

30 Capsules.

Ingredients:

Affron®.
Vitamin B.
Vitamin D.
Alpha Lipoic Acid.

AORA DAY

Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + Increases vigour.
- + Increases cognitive performance.
- + High in antioxidants for cell protection.
- + Boosts energy.

Format

30 Capsules.

Ingredients:

Affron®.
Rhodiola.
Withania.
Resveratrol.
Superoxide Dismutase.
Indian Gooseberry.
Magnesium.
Vitamin B6.

AORA NIGHT

Effect:

- + Increases positive mood.
- + Reduces stress and anxiety.
- + High in antioxidants for cell protection.
- + Better sleep: less interrupted and more restful sleep.

Format

30 Capsules.

Ingredients:

Affron®.
Melatonin.
Passiflora incarnate.
Eschscholzia Californica.
Resveratrol.
Superoxide Dismutase.
Indian Gooseberry.
Vitamin B6.

OPHTHALMOLOGY

VITROAORA

Effect:

+ Reduces and prevents vitreous floaters formation.

Format

30 Capsules.

Ingredients:

Vitis vinifera (grape seed) extract	Vitamin B2
Hesperidin	Selenium
L-lysine	Zinc
Vitamin C	

RETIXTOP

Effect:

+Extensive action in diabetic retinopathy.

+Reduce levels of cholesterol and increase levels of insulin.

Format

30 Capsules.

Ingredients:

Alfa Lipoic Acid LA.	Rutosyde.
Vitamin B1.	

NUTREYE

Effect:

+Prevention of age-related macular degeneration development.

Format

30 Capsules.

Ingredients:

Affron eye ®	Vitamin C.	Copper.
Lutein.	Vitamin E.	Zinc.
Zeaxantin.	Vitamin B2.	

NEW RELEASE 2023

AORA DRY EYE

Effect:

+Increased tear production in dry eyes.

+Improved tear stability.

Format

30 Capsules.

Ingredients:

Maqui.	Lutein.	Vitamin D.
Hyaluronic Acid.	Zeaxanthin.	
Curcuma.	Vitamin E.	

OTHER CATEGORIES

VITAPROST

Effect:

- + Healthy prostate function.
- + Reduces bladder discomfort.
- + Healthy urinary flow.

Format

30 Capsules.

Ingredients:

Saw palmetto extract.
Pumpkin extract.
Nettle extract.
Tomato extract.
Zinc.

SLIM UP

Effect:

- + Weight loss.
- + Satiating effect.
- + Inhibition of carbohydrate absorption.
- + Fat burner.

Format

60 Capsules.

Ingredients:

Glucomannan.
Phaseolamin.
Green Coffee.
Chromium.

AORA AQACTIVE

Effect:

- + Fast and lasting joint pain relief.
- + Increases and enhances motility, flexibility and performance.
- + Joint protection.
- + Natural, safe and clinically tested.

Format

20 Capsules.

Ingredients:

Scutellaria extract.
Acacia extract.
