## ABOUT MEDEX

### A PIONEER OF APITHERAPY

---

**Medex is a pioneer in apitherapy** and incredibly passionate to improve people's lives **with innovative food supplements based on bee products.** We are constantly **pushing the frontier of apitherapy** with a clear mission to **upgrade the traditional use** of bee products **with clinically supported innovations** to solve medical challenges of our times.

### THE BEE-CENTRIC COMPANY

---

**Bees** are our inspiration, they fascinate us, they are beautiful, and **their importance to mankind is beyond measure.** Every third spoonful of food is dependent on bees and pollinations. **Respecting bees** and understanding their importance for the environment **also improves our lives.**

## NATURAL & QUALITY PRODUCTS

---

**Our products** reveal **the secrets** of hard work of **bees** into a pure **miracle of nature**. They are made to the **highest quality standards, while having everyone's health and well-being** in mind - from children, working population to the elderly. **By combining beehives treasures** and other **natural ingredients** we **level up immune system & overall well-being of the people**.

## BEE – SUSTAINABLE COMPANY

---

As a partner in the project **“Development of beekeeping in Ghana”** our common goal is to create new jobs, reduce poverty, and strengthen rural development. With this project, we are fulfilling **our sustainable mission**, which also means **a better and friendlier world for all**.

## WHERE TRADITION MEETS MODERN SCIENCE

---

We have been building a **bond of respect and trust** since 1954 with the innovation, tradition, quality, and safety of our products. One of our main goals is an **open and honest relationship** not only with our consumers, but also with the wider environment in which we operate.

## FIRST AMBASSADOR OF THE WORLD BEE DAY

---

The initiative of **the World Bee Day** came from our mother land – **Slovenia**, where people are very aware of **bee's incredible mission**, so **beekeeping** has strong **roots in Slovenian tradition and our company**. We have always been **the driving force** behind the development and knowledge spreading in the **field of beekeeping all around the world**.

# PLANT A TREE, HELP A BEE!

The world's **bee population is decreasing** due to **climate change, habitat loss**, and the use of pesticides. With the disappearance of numerous plants, animals that live in harmony with them, **including bees, are also disappearing**. In some parts of the world, humans have cleared forests and completely **disrupted the natural balance**. **Reforestation** is particularly important in such **degraded areas of the world**.

In the interest of environmental well-being and a better coexistence between humans and nature, **Medex joined the Slovenian Treecelet seedling project in 2022**. In the first year alone, they **planted 10,000 trees** in Tanzania! They will continue to plant trees every month, at a rate of 400 per month. The planting efforts will be combined with raising public awareness about the importance of responsible behavior towards nature and spreading awareness about the significance of protecting bees and the environment on a global scale.

**You can also help!** For every virtual tree planted on [www.help-a-bee.com](http://www.help-a-bee.com), Medex, in collaboration with Treecelet, will plant a real tree in Tanzania.

# Gelée royale - amazing food of queen bees, keeping the cells in balance

IMMUNITY & PREVENTION

CLINICALLY PROVEN EFFECT

CHILDREN 3+

The quantity of **10 HDA** is an important quality factor for royal jelly. In Medex, we have **standardised the quantity of HDA** and thus provided **guaranteed & transparent quality**.
