

Delivering Beyond

Possibilities

Achieving glorious 45 years of
excellence in 2024

About us

With a rich four-decade heritage, BEC Chemicals Pvt. Ltd. proudly specializes in manufacturing active pharmaceutical ingredients (APIs) and intermediates. Our enduring journey has solidified our position as a trusted and accomplished player in the pharmaceutical sector.

In the dynamic world of pharmaceuticals, we consistently excel in delivering top-notch APIs and intermediates, supporting the healthcare industry's critical needs. Our extensive experience has honed our expertise in innovation, reliability, and sustainability.

Each day, we draw inspiration from our esteemed partners, whose trust fuels our relentless pursuit of excellence. Our journey is driven by the aspiration to make a profound impact on global health by producing essential pharmaceutical components of the highest quality.

Certifications

BEC Chemicals Pvt. Ltd. takes immense pride in holding a spectrum of prestigious accreditations and certifications, including

**EU-GMP, US-FDA, PMDA, KFDA,
RFDA, WHO-GMP, TFDA, and
CDSCO**

These certifications underscore our unwavering commitment to upholding the highest standards of quality and compliance. We diligently adhere to the stringent guidelines outlined in ICH Q7, ensuring that our manufacturing processes are characterized by precision and excellence.

We are also

**ISO 9001:2015, ISO14001:2015
ISO 45001:2018 Certified.**

Manufacturing Site

At BEC Chemicals Pvt. Ltd., we have established two distinct API manufacturing plants, each strategically located to meet the growing demands of the pharmaceutical industry.

Roha Plant

Our Roha plant, situated in Maharashtra, stands as a cornerstone of our operations. It proudly holds approvals from **EU-GMP, US-FDA, and PMDA**, demonstrating our unwavering commitment to producing high-quality APIs that meet stringent global pharmaceutical standards.

Saykha Plant

In parallel, our Saykha plant is a brand-new addition to our manufacturing capabilities, equipped with cutting-edge technology and adhering to the strictest industry standards, including approvals from the **State FDA and WHO-GMP**. These facilities collectively symbolize our dedication to providing pharmaceutical solutions that excel in quality, sustainability, and compliance, while minimizing environmental impact.

Our Product Range

Commercialized

API's

Product	CAS No.	Approvals	Under Approval	Therapeutic Area
Ketoprofen	22071-15-4	Russia, Korea, Taiwan, Japan & Brazil	Brazil	NSAID's
Dexketoprofen Trometamol	156604-79-4	Russia & China	Europe	NSAID's
Ketoprofen Lysinate	57469-78-0		Italy	NSAID's
Mesalamine or Mesalazine	89-57-6	Europe, Russia, China, Brazil & Taiwan		NSAID's
Montelukast Sodium	151767-02-1		Europe	Antiasthma
Donepezil	120014-06-4		Korea	Anti-Alzheimers
Donepezil HCL	884740-09-4	Europe		Anti-Alzheimers
Flurbiprofen	5104-49-4	Europe		Anti-Inflammatory
Bisoprolol Fumarate	104344-23-2	Europe		Antihypertensives
Dexibuprofen	51146-56-6			Anti-inflammatory

Intermediates

Product	CAS No.	End Use
Ketoprofen Nitrile (Intermediate for Ketoprofen)	42872-30-0	Ketoprofen
ADPA f2-Amino-4- DilorodiphenylAmine)	68817-71-0	Clofazimine
(S)-(t-3- Hydroxytetrahydrofuran)	86087-23-2	Empagliflozin

Chemicals

Product	CAS No.	End Use
3-(1-CYANOETHYL) BENZOIC ACID(CEBA)	5537-71-3	Ketoprofen

Under Development

API's

Product	CAS No.	End Use
Ibuprofen Lysine	57469-77-9	Anti-inflammatory drug
Loxoprofen Sodium	68767-14-6	NSAID's
Piketoprofen	60576-13-8	NSAID's
S-Flurbiprofen	51543-39-6	Anti-inflammatory
Nebivolol	118457-14-0	Beta-blocker

Intermediates

Product	CAS No.	End Use
2-(2-(3-(2-(7-Chloro-2-quinolinyl)-ethenyl)phenyl)-3-hydroxypropyl)phenyl)-2-propanol	142569-70-8	Montelukast Sodium
(3S)-3-[4-[(5-Bromo-2-chlorophenyl)methyl]phenoxy]tetrahydro-furan	915095-89-5	Empagliflozin
Ketoprofen Ethyl Ester	60658-04-0	DexKetoprofen Trometamol

Research & Development

BEC Chemicals' R&D Center is a hub for innovation in creating Active Pharmaceutical Ingredients (APIs) and intermediates. Our team of scientists in Andheri, Mumbai, work tirelessly to discover new and improved ways of producing these essential components of medicines.

We value collaboration, working closely with universities, experts, and research groups to solve complex challenges and learn from one another.

Our commitment to quality and safety is unwavering. We strictly adhere to industry standards and robust systems to ensure the excellence and safety of our APIs and intermediates.

At BEC Chemicals' R&D Center, we also offer research services to assist other companies in their endeavors. We believe that by working together, we can enhance the pharmaceutical industry for the benefit of all. Join us in advancing pharmaceutical innovation.

Contract Manufacturing Services

We prioritize trust, reliability, quality, environmental compliance, and long-term partnerships, making us the ideal choice for your contract manufacturing needs.

Our batch manufacturing processes encompass a wide range of reactions, including:

Fidel Craft Reactions, Hydrogenation, Oxidation, Reduction, Esterification, Alkylation, Acetylation, Esterification, Cyclization and many others.

These are just a few examples of the reactions we specialize in. Our dedicated team of experts ensures meticulous attention to detail and stringent quality control measures to achieve precise and consistent results throughout the production process.

We welcome your inquiries and look forward to assisting you. Please feel free to contact us via email or phone for any questions or collaboration opportunities. Our dedicated team is here to provide timely and responsive support to meet your pharmaceutical needs. Let's connect and explore possibilities together.
