PHARMACIRCLE™

EXPLORE THE WORLD OF API MANUFACTURING

API EXPLORER

API Explorer is a comprehensive, hand curated database that harmonizes multiple sources of Active Pharmaceutical Ingredient manufacturing, patent and synthesis data.

Explore detailed records to better undestand the chemistry and manufacture of APIs.

- ✓ API Manufacturer Lists
- ✓ Patent Abstracts
- ✓ Routes of Synthesis
- ✓ Pharmacokinetic Data
- ✓ Physical Chemical Properties
- ✓ Solubility in Different Solvents
- ✓ OEL Classifications
- ✓ Polymorphic Forms
- ✓ PubChem Data

Identify API manufacturers within a specific country or metropolitan area by API name, API type, mechanism type, manufacturer name and CAS registry number.

API Explorer seamlessly integrates with other PharmaCircle search modules to provide a complete view of the innovator, generics company and supplier landscape.
