

GLOBAL TESTING EXCELLENCE

About Us

We're passionate about helping medical device developers, combination device manufacturers, and pharmaceutical companies bring their life-saving products to market quickly, safely, and to more markets around the world.

GMP | GLP | ISO17025
Accredited

Our Mission

Is to improve **patients' lives** by providing **comprehensive testing services**, enabling clients to launch and release their products safely and **rapidly across the world**.

Industries We Serve

- ✓ Medical Devices
- ✓ Biotechnology
- ✓ Combination Devices
- ✓ Healthcare Providers
- ✓ Pharmaceutical
- ✓ Regulatory Bodies

Quality Assurance & Compliance

Expertise in GMP, GLP, and ISO17025 for your product's assured compliance

Biocompatibility Testing

Safety and compatibility testing for all medical device classes.

Microbiological & Sterility Testing

Validated sterility to meet rigorous healthcare standards.

Chemical & Physical Analysis

Unrivalled materials characterisation expertise and understanding

Functional & Performance Validation

Reliable functional validation for optimal device performance.

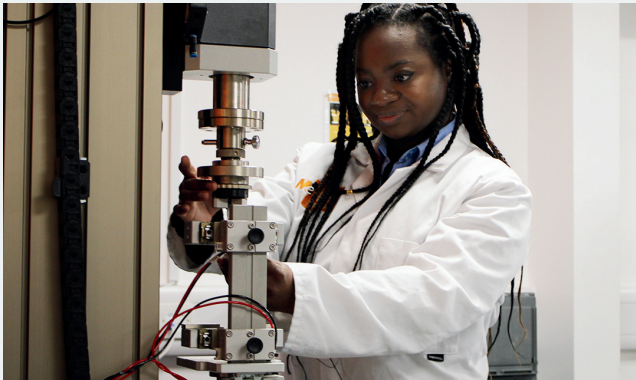

Packaging, Seal & Transit Testing

Ensuring intact and sterile products from shelf to patient.

COMPREHENSIVE GLOBAL TESTING SERVICES

GMP | GLP | ISO17025
Accredited

- Biocompatibility Assessment
- Transit Validation
- Packaging Performance
- Human Factors
- Delivered Dose Verification
- Pre-filled Syringe Validation
- Container Closed Integrity
- Seal Strength and Integrity

- Method Development & Validation
- Elemental & Physical Chemistry
- Extractables & Leachables
- Particulate Matter Characterisation
- Ageing & Stability Studies
- Degradation Studies
- Materials Characterisation
- Advanced Separation Sciences

- Sterility Testing
- Quality Control & Batch Release
- Microbial Identification
- Cleanroom Validation
- Endotoxin Testing
- Human Microbiome
- Cleaning Validation
- Preservative Efficacy

From Our Lab to
Global Markets –
Testing Done Right.
