About Us

● **2008**

Founded as a medical device consulting company.

● **2009**

- Following the market, it transformed into a design and brokerage company for the production of medical devices, cosmetics, and dietary supplements.
- CEO Daniele Scetta designs and builds the Sinergie Farmaceutiche (dietary supplements, cosmetics, medical devices) production facility with his second client Stewart Italia.

● **2011**

GFI and Sinergie Farmaceutiche are ISO 9001 and 13485 certified.

About Us

2018

- GFI builds the Teverola (CE) manufacturing site with two lines of cosmetic liquids, dietary supplements and medical devices
- GFI acquires 5 % of solid food supplement company Pharmintek

2021

- GFI completes 4 observational clinical trials and starts its first interventional clinic on newborns
- Teverola site receives 2 GMP FOOD certificates with Bureau Veritas and ASL
- GFI acquires Pavia plant

2022

- GFI begins construction of 3 new departments at Teverola site and 2 at Pavia site

Our Vision

Gruppo Farmaimpresa believes that dedication to work is the right way to success and that sharing ideas and projects is the best way to improve and grow

HO

Our Service

Ready to market products

Clinically supported exclusively products in
ready to market line under our brand

PJPHARMA

Our Service

Private Label

Our ready to market products available with
your brand

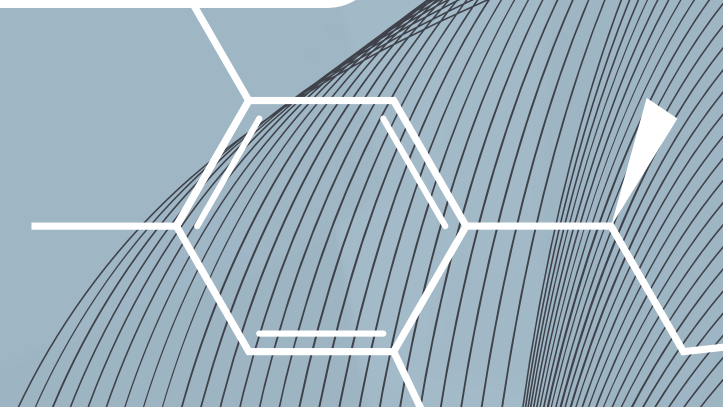

Our Service

Contract Manufacturing

Tailor made solutions that meets your specific needs

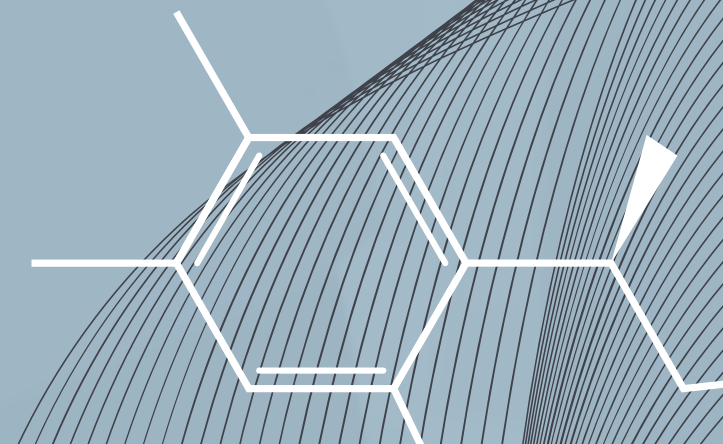

Our Service

Developing of new products

Over 100 new formulations per year

Our Service

Regulatory Affairs

Registration of the products in territories of your interest

We support the registration and marketing of your products, providing documentation and interface with the relevant authorities

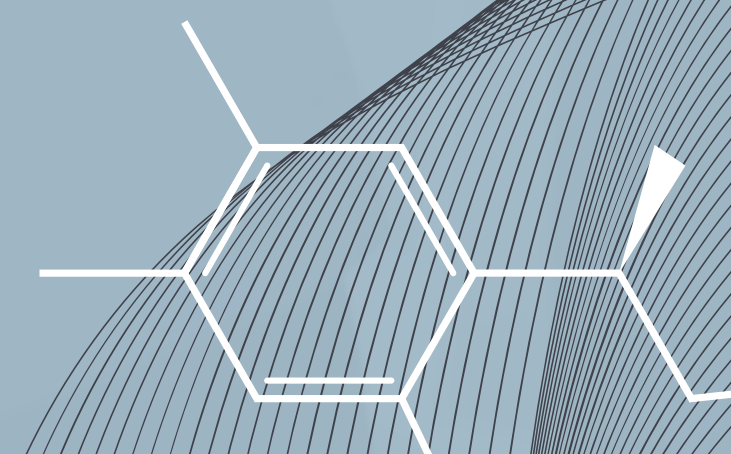

Our Service

Dossier development

Dossiers available on all our products and possibility to develop new ones for your formulation

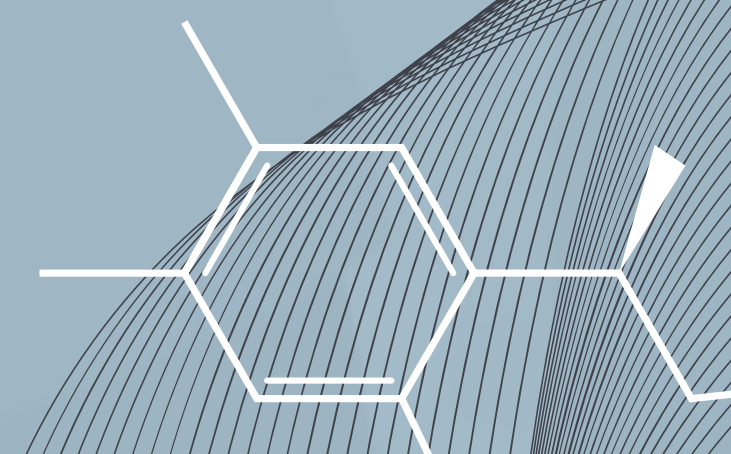

Our Service

Data and clinical data

We provide efficacy data on products derived from our clinical experience and clinical trials

Our Service

Consulting and Certification

We offer strategic-regulatory advice on key aspects of commercialization, enabling our client to navigate the complexities of international regulations

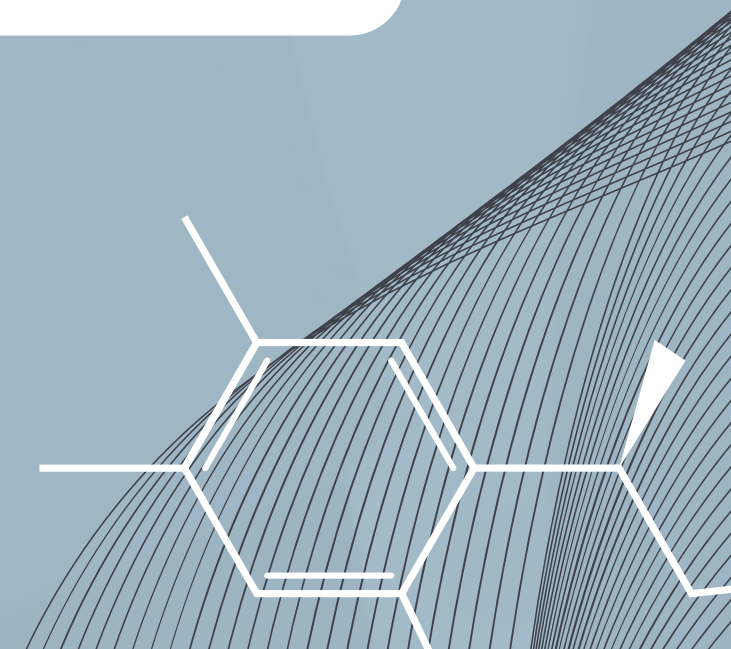

Our Service

Marketing support

We support clients in product launch, from providing marketing dossiers to product training for the sales force

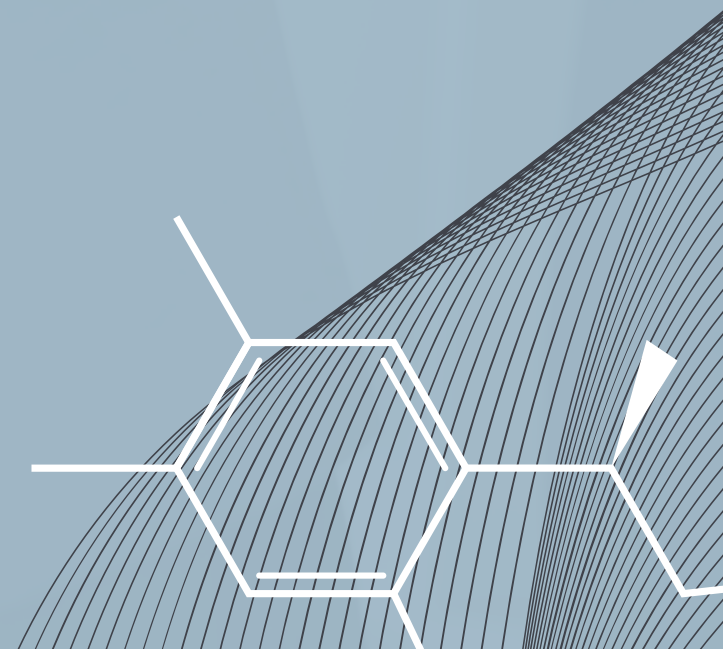

Our Service

Graphic Design

Our Service

Trademark and patents

We have trademarks on some of our products and patents on some innovative formulations

OUR TECHNOLOGY

Compreezer®

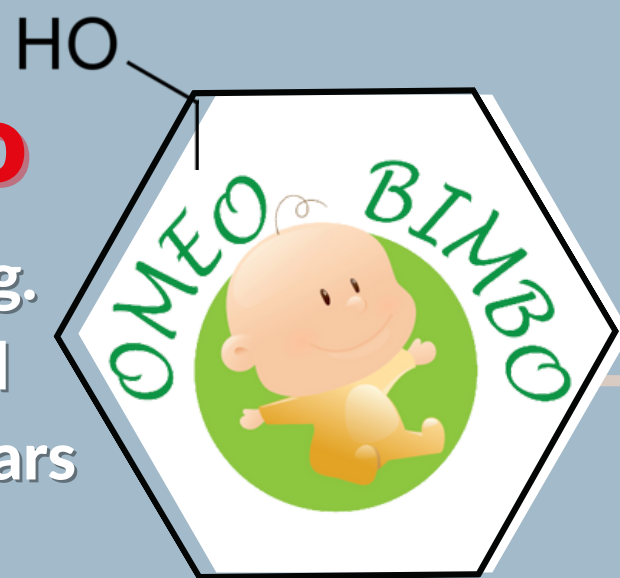

Technology which preserves the ingredients thermosensitive (fatty ingredients, some vitamins, probiotics)

OH

Omeo Bimbo

Product in compliance with reg. 1333/2008 additives for food intended to children under 3 years old (Infants).

HO

HO

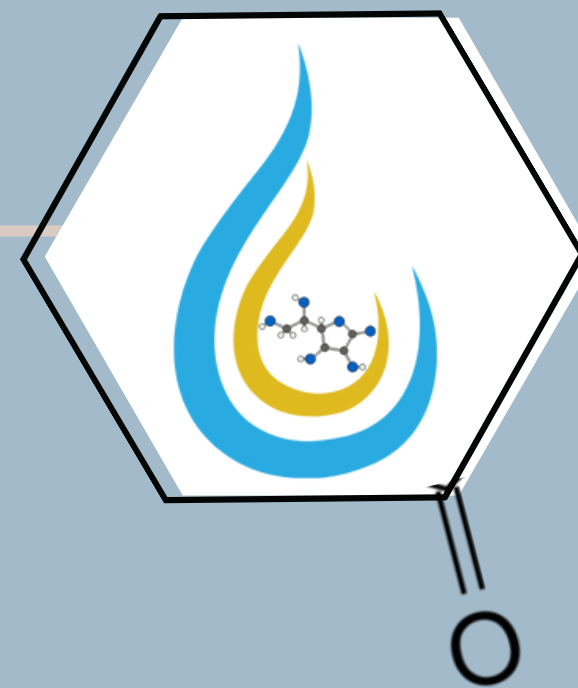

Microemulsified ingredients

Protect PI in gastrointestinal tract and improve bioavailability (ex. Iron)

Food Emulsions

Improve solubility of PI insoluble in water
Mask the bad taste of PI
Improve bioavailability
Great compliance

O

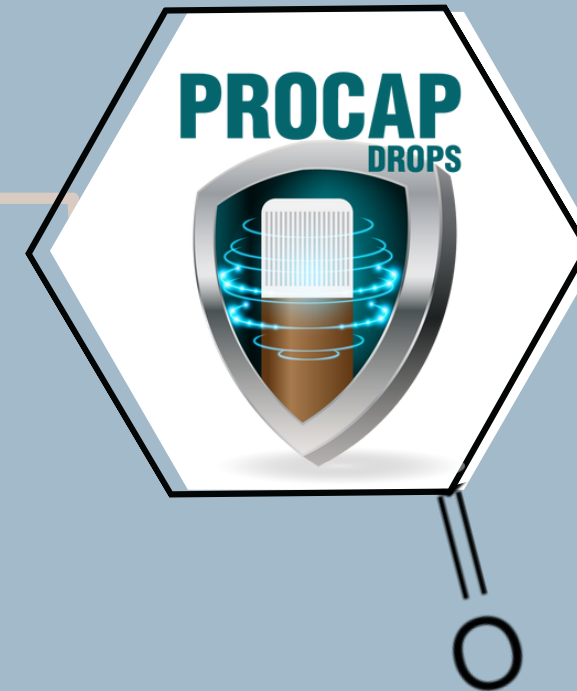

OUR TECHNOLOGY

PhysioRelease

Release of PI where it will be absorbed (small intestine)
(ingredients with a short half-life)

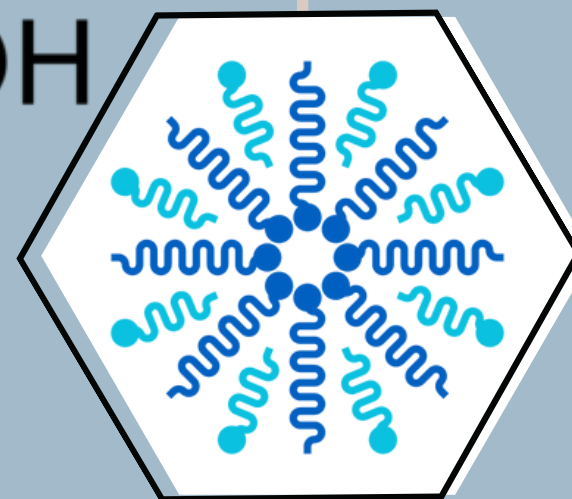

OH

Procap Drops

Improve the conservation of PI in drops.
Greater activity or vitality of the active PI sensitive to contact with air, water or other solutions. Avoid the use of preservatives and stabilizers.
Prevents premature mixing of components.

Complexation with lipid matrix

Improve bioavailability
Improve solubility in water
Can grant gastroresistance to a powder
Can grant special speed release in GI tract to a powder
(ex FITOMINA and FITOSVELIA)
