

# COMPANY PROFILE

THE LEADING PEPTIDE MANUFACTURER IN ASIA

Hainan Zhonghe Pharmaceutical Co., Ltd. is the first pharmaceutical manufacturer specialized in researching and manufacturing peptide drugs and cosmetics in China.

We have a peptide drug R&D center which leverages our power to independently develop new peptide and nucleoside drugs. As of now, our pipeline has covered many therapeutic areas, including immunology, tumor, liver diseases, first aid, digestion, urinary, gynecology and perinatology.

There are two manufacturing sites - one API manufacturing site and one formulation site, which spans across 68000 square meters, with the plants covering a total area of 16000 square meters. The premises comprise peptide and chemical API workshops, and several formulation production lines.

## In-House Manufactured API on Sale

No.	Name	Clinical Usage
1	Thymalfasin	Cancer, hepatitis
2	Desmopressin Acetate	Surgical bleeding and Anti-diuresis
3	Octreotide Acetate	Gastrointestinal hemorrhage
4	Atosiban Acetate	Premature labor
5	Cetrorelix Acetate	Infertility Treatment
6	Carbetocin	Prevention of uterine atony and postpartum hemorrhage
7	Bivalirudin	Anticoagulant in patients undergoing percutaneous coronary intervention
8	Semaglutide	Treatment of type 2 diabetes and obesity
9	Eptifibatide	Platelet aggregation
10	Ganirelix Acetate	Prevent premature ovulation

# API Under Development

No.	Name	Clinical Usage
1	Somatostatin	Gastrointestinal haemorrhage
2	Thymopentin	Immunomodulator
3	Triptorelin Acetate	Treatment of prostate cancer and precocious puberty
4	Linaclotide	Treatment of various types of constipation
5	Teriparatide	Treatment of osteoporosis
6	Terlipressin Acetate	Treatment of bleeding caused by esophageal varices
7	Tirzepatide	Treatment of type II diabetes and obesity
8	Oxodotreotide	Treatment of gastroenteropancreatic neuroendocrine tumours (GEP-NETs)
9	Oxytocin	Stimulates contractions during labor and reduces bleeding after childbirth
10	Scorpion venom heat resistant peptide	Antiepileptic drug
11	Acetyl-Octapeptide-3	Removes face wrinkles by reducing muscle movement
12	Nonapeptide-1	Brightens the skin tone, inhibits and reduces excessive production of melanin
13	Palmitoyl Tetrapeptide-7	Reduces inflammation and skin damage
14	Pentapeptide-3	Reduces signs of aging, including minimizing the appearance of expression lines and wrinkle depth
15	Acetyl tetrapeptide-5	Reduces dark circles under the eyes by improving the elasticity of the eye skin
