Self-Adhesive Revolution

Arca is a market leader in the self-adhesive revolution in Italy. Since then a continuous growth, in consolidated turnover (today Arca is a joint-stock company with private capital), as well as in the quality level guaranteed to customers.

Etifix srl

Etifix srl is born, as a flexible company able to offer proposals in a short time.

Benefit Corporation by Notary's Deed on 8 April 2021

A new legal statute with the aim, in addition to profit, of generating shared economic and social value, in a transparent and responsible way. Our values will be monitored and measured over time through an Impact Report in order to increase innovative solutions on social and environmental issues.

Arca Etichette Spa Benefit Corporation

is proud to be in the
B Corp Community

Certified

Corporation

Certified

Corporation

This company meets high standards of social and environmental impact.

What does B Corp certified means?

Certified

Corporation

B Corp is an innovative movement made up of companies with a single purpose: to be protagonists of a global change with their activities, creating a positive economic, social and environmental impact.

Currently, more than 8,000 B Corps operate in more than 160 industries in 90 countries around the world

B Corp certification is a highly selective status. Companies must document their positive impact to qualify and undergo verification every three years to maintain their certification.

The B Corp assessment process measures performance of companies in five categories: governance, workers, customers, community and the environment.

- Eco-sustainable labels

..and many others! We give space to imagination

Decoration

A unique range of graphic and paper based solutions.

Promotion

The ideal support for your "on pack" promotions.

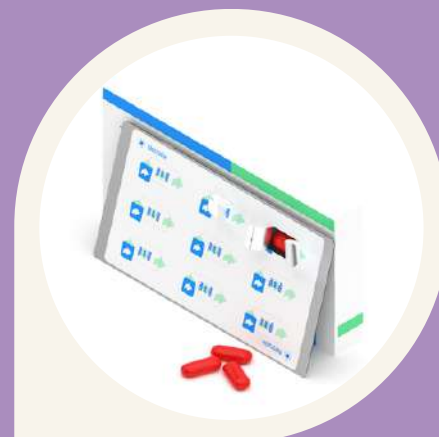

Security

Anti-counterfeiting and anti-violation labels providing protection to the product.

Durable identification

Designed to last a long time, guaranteeing identification for a product's entire lifecycle.

Special uses

Suitable for a multitude of different uses!

Logistics

A wide materials' range that guarantee a long term and perfect reading of texts and barcodes.

International presence

Arca is part of an international group of six independent label manufacturers and print converters across Europe: Concordia Labels.

Working together, sharing experiences

A company to conduct joint technical development and exchange experiences, technologies, resources and best practices. Our membership in Concordia Labels allows Arca to benefit from a continuous flow of news, know-how and benchmarking.

An international purchasing group

Concordia Labels also operates as a buying group for materials and equipment, providing a competitive edge for all associated members in their respective markets. Lastly, Concordia Labels guarantees a productive backup for possible emergencies.

Our certified quality

ISO 45001

We cultivate an engaged, safe, productive and healthy workforce in compliance to international standards.

ISO 9001

Our products and services consistently meet customer's requirements, and quality is consistently improved.

ISO 14001

We meet all requirements for an effective environmental management system.

FSC®

We are particularly careful to the environmental, social and economic sustainability of materials. We use FSC® certified paper from protected forests by international regulations.

ISCC PLUS

A voluntary standard for the circular economy certification that allows us to monitor and demonstrate the sustainability of our products by checking the sustainability, traceability and mass balance requirements of the entire system.

BRC

We comply to all global standards for packaging & packaging materials in the category "low hygiene risk".

UL

We meet all quality & safety standards for the U.S. market as assessed by Underwriters Laboratories Inc.

Arca's sustainable approach

We possess eco-sustainability certifications to guarantee our stakeholders.

We use UV Led lamps.

We increase digital productions compared to traditional ones.

We reduce the waste of materials, inks and promote the use of recycled materials.

We promote the development of ecological packaging solutions.

Our carton packaging is 100% FSC® certified.

We make our supply chain even more eco-sustainable: from suppliers to customers.

We generate actions in favor of the environment with particular attention to the local community.

We reduce greenhouse gas emissions by promoting green traffic circulation.

The eco-friendly product range

WE ARE THE IDEAL SOLUTION FOR YOUR GREEN NEEDS:

- 1** Bio Based materials **⇒⇒⇒** PE BIORENEW MARBLE BASE STONE PAPER
- 2** Natural sources materials **⇒⇒⇒** FSC® COMPOSTABLE BIODEGRADABLE
- 3** Recycled Materials **⇒⇒⇒** rPET/rPP/rPE Cleanflake portfolio
- 4** Materials' Reduction **⇒⇒⇒** LINERLESS THINKTHIN films

Our green packaging

A project to reduce the ecological impact of packaging materials.

Eco-designed pallets made of PEFC and FSC® certified wood and managed according to the criteria of legality, sustainability and traceability of the forest supply chain.

GREENPALLET®

Since long time we've been using FSC® cardboard boxes

FSC® BOXES

From polyurethane sachets with swelling adapted to the content, today we use fillers only in PE film (partially recycled) cut to size and which swells in bubbles.

PARTIALLY PE RECYCLED FILM

In recycled polyethylene.

EXTENSIBLE PE RECYCLED FILM

To replace the classic polyester tape, since 2024 we have been carefully sealing the boxes using FSC certified brown paper tapes.

FSC® PAPER TAPES

Partnership & current Projects

Cycle4Green

Even in 2023, Arca Etichette has renewed the partnership with C4G, a company that offers a Release Liner Recycling service throughout Europe. From the withdrawal of the material to the conversion into paper and resale on the market. Last year, we recycled 13,1 tons of recycled silicon paper materials, equates to a 25 tons reduction in CO₂. A perfect circular economy!

Our green heart forest

Arca contributes to protect environment by planting trees with Treedom around the world with the aim of:

- CO₂ reduction
- Reforestation
- Preserve biodiversity
- Benefits to entire communities

Marine Reforestation

Arca Etichette, together with ZeroCo₂, has contributed to plant 50 Posidonia plants in Golfo Aranci, Sardinia. Creating a Posidonia meadow means absorbing CO₂, producing oxygen, giving home to many marine species and safeguarding the seabed.

Bee My Future

Even this year, Arca has “adopted” an entire beehive.
“If the Bee Disappeared Off the Face of the Earth, Man Would Only Have Four Years Left To Live”
(Albert Einstein)

Partnership & current Projects

LIFEGATE | ENERGY

100% Renewable Energy and with Zero Impact®

Arca uses 100% renewable electric energy and with Zero Impact® alongside LifeGate. It means reducing the polluting impact of the energy system and preserving environmental resources.

Open-es Community

An innovative **digital platform** opens to all companies engaged in the challenge of the **energy transition**.

An initiative that allows us to further measure our sustainability performance by involving our suppliers and partners.

AIM HolyGrail 2.0

An ambitious project with the aim to implement an authentic circular economy by revolutionizing the way packaging is sorted in the waste management system. How? By using digital watermarks.

Corporate Golden Donor

Arca is a "Corporate Golden Donor" of the FAI - Fondo per l'Ambiente Italiano (the National Trust for Italy) and, together with 500 other companies, contributes to the development, support and enhancement of the Italian territories.

We want a more protected beautiful Italy. We work with FAI to build it.
