İLKO WORKS FOR THE FUTURE OF PHARMACEUTICAL INDUSTRY AND HUMAN HEALTH

The activities of İLKO Pharmaceuticals together with its umbrella establishment Selçuklu Holding, are based on the pharmacy business of Mustafa Öncel, one of Türkiye's second-generation pharmacists who started its business activities by producing the medicines known as 'Majistral' in the 1960's and his later investments in the pharmaceutical sector. Established in 2012 with the goal of taking its more than 50+ years of accumulated knowledge and heritage to higher levels, İLKO Pharmaceuticals focuses on value added and innovative products and carry out its activities in areas of generic small molecules, biopharmaceuticals, and consumer healthcare in state-of-the-art manufacturing facilities and strong R&D structure.

OUR PREMISES

İLKO PHARMACEUTICALS HEAD OFFICE

- İlko Pharmaceuticals' RX, biotechnology and consumer health activities are managed from its headquarters with over 100 employees.

İLKO PHARMACEUTICALS PRODUCTION PLANT

- The largest pharmaceutical investment in Anatolia.
- Annual production capacity of 120 million boxes / single shift.

İLKOPOL HIGH POTENT PRODUCTION SITE

- To be a pioneer in the pharmaceutical industry with diversified production. The new production facility for high potent non-sterile products received GMP approval and became operational in the fourth quarter of 2024.
- The product portfolio continues to be expanded and strengthened.
- İLKOPOL provides **CMO** services to pharmaceutical companies.

İLKO ARGEM R&D CENTER

- Located in Ankara, Hacettepe University Technopark.
- Value added small molecule products based on high-tech are developed by expert staff in this R&D center.

FOCUSED TECHNOLOGIES

- **Conventional tablet and capsule technology**
- **Modified release systems**
 - Hydrophilic Matrix Technology
 - OROS Technology
 - MUPS Technology
 - Core-in Tablet Technology
- **Multilayer Tablet Technology**
- **Orally Disintegrating Tablets (ODT) Technology**
- **Topical systems**

STRONG R&D STRUCTURE

İLKO ARGEM BIOTECHNOLOGY CENTER

- First biotechnology R&D Center Türkiye.
- To develop next generation biobetter and biosimilar products.
- Novel biopharmaceuticals are in the main scope of the company.

FOCUSED TECHNOLOGIES

- **Upstream process**
- **Downstream process**
- **Quality Control department with advanced technology infrastructure.**

Our biotechnology projects are focused mainly on antiTNF and anticancer therapies.

Biotechnology Infrastructure:

- Mammalian cell based process (biobetters, biosimilars, novel biotech products)
- Protein Drugs (MABs, Recombinant proteins)

A LEADING ROLE IN BIOTECHNOLOGY

İLKO focuses on the field of biotechnology, which is the future of the global industry, and works with the aim of becoming a global player in this field, which requires great investment and knowledge.

İLKOGEN: TÜRKİYE'S FIRST BIOTECHNOLOGY COMPANY

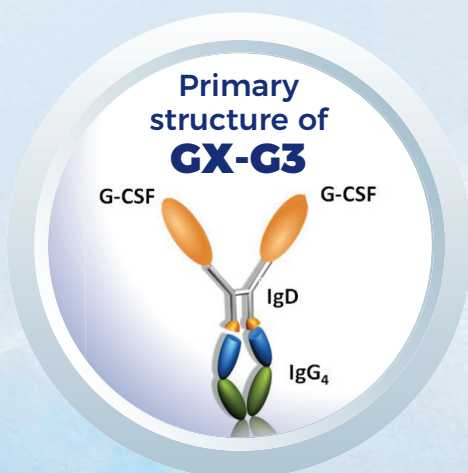

Founded in 2013 as a joint venture by Turkish pharmaceutical company İLKO and Korean biotechnology company Genexine, İLKOGEN is a unique innovation company in Türkiye with the scope of developing and manufacturing novel biotechnological pharmaceuticals as well as next generation biobetter and biosimilar products.

BIOTECHNOLOGICAL PIPELINE

Our biotechnology projects are focused on anti-cancer and anti-TNF drugs mainly. The phase II clinical trial of GX-G3 (G-CSF developed by hyFc technology), our first original biotechnological drug to be used in treating neutropenia due to chemotherapy, is completed successfully.

New generation biobetter products are targeted to be developed, in addition to the biosimilars. Our highly skilled scientists at İLKO Argem Biotechnology Center have over a decade of experience and are capable of generation high quality, fast turnaround and cost-effective stable CHO cell line, development robust and high efficiency upstream and downstream process and carry out product characterisation and stability studies.

PRD	CLASS	TREATMENT AREA	RESEARCH	CLINICAL PHASE			
				PRE-CLINICAL	I	II	III
GX-G3 (3rd generation filgrastim developed by hyFc technology)	Biobetter	CIN*					
Bevacizumab	Biosimilar	Oncology					
Nivolumab	Biosimilar	Oncology					
Pembrolizumab	Biosimilar	Oncology					

WELLCARE: THE ART OF LIVING HEALTHY

With the vision to become a global consumer healthcare brand and solid infrastructure of over 50 years of experience in the pharmaceutical industry, İLKO Pharmaceuticals created the brand WELLCARE to bring a fresh breath into various therapeutic areas with its consumer healthcare products to support not only current but rapidly changing needs of the world.

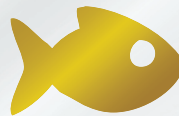

WELLCARE aims to offer solutions for health problems at all stages of life and to improve the quality of wellbeing with innovative, scientific and reliable products in different categories: With proven clinical efficacy and the approval from Health Authorities.
