

algem[®] | **Company**
NATURA | **Profile**

A hand in a white sleeve holds a tall, slender glass bottle. To its right is a shorter, wider glass vase containing a single purple flower with a green stem. The scene is set on a white, draped fabric background, creating soft shadows.

Algem Natura: different way of looking at natural health.

Our approach is simple and modern.
Our brand connects with people, we understand their needs.
The quality of products is certified and protecting health is our
priority.

Algem makes you feel good.

Algem Natura in the World

More than
1.000
retailers in Italy.

Our products are sold throughout Italy in Pharmacies, Parapharmacies and Herbalist's shops, thanks to our sales network and to the strong partnership with the biggest pharmaceutical distributors.

Since its launch in 2016, Algem Natura has been promoting its idea of “wellness” worldwide. You can already find us in **more than 10 Countries**, would you like to be our next partner?

The continue research of innovative formulations is the starting point of our supplements' development.

Choosing Algem means choosing different products with unique characteristics created to meet real health needs.

**We are always at work
looking for the best natural
ingredients and developing
effective and clean finished products.**

**This approach has allowed us to develop the
first line of supplements containing pharma
grade botanicals from vertical farming.**

OUR BEST SELLERS

DOL CARE

One of our best sellers, Dol Care was developed with specific ingredients that are effective against localized tensions associated with inflammation (headache, back pain etc.).

Ingredients are PEA, Parthenium and Phycocyanin obtained with italian vertical farming technologies. Zero residue certified, Dol Care is supported by scientific evidence in collaboration with the University of Turin, Italy.

Available in sticks and orodispersable tablets.

MANUKA HONEY

Algem Natura was the first european company to use Manuka Honey as a leader ingredient in a broad range of different supplements.

Its combination with specific plant extracts has led to the creation of a wide range of products having more than 20 different health properties.

Manuka Honey comes from the nectar of *Leptospermum scoparium*'s plant which grows in New Zealand and gives birth to a strong-tasting and rich in consistency type of honey. The Manuka Honey and its essential oil have shown very high antimicrobial, anti-inflammatory, immunostimulatory and healing properties.
