

AUDIT REPORT PURCHASE

REQUESTING THE PURCHASE OF EXISTING GMP, GDP OR GCP AUDIT REPORTS

Intertek's shared audit teams carry out audits in accordance with relevant international standards and are specific to the type of audit activity required by our clients.

To meet the growing demand for information about suppliers and in particular, greater detail about specific sites, our clients are increasingly requesting the purchase of existing audit reports.

Our shared audit team is comprised of a global network of highly trained auditors who have both local knowledge and an in-depth understanding of the relevant national and international regulations.

This process generally takes 1 to 4 months

- 1 A report purchase request is made
- 2 Email from Intertek with next steps (price of purchase, template for supplier agreement)
- 3 Intertek receives the agreement of the audited plant
- 4 Intertek issues a formal quote & receives the order
- 5 An agreement request is sent to the initial customer
- 6 A CDA is signed
- 7 An invoice is sent and payment is made
- 8 The Auditor prepares a new copy of the report
- 9 The report is issued

To see a list of forthcoming audits and an up-to-date list of plants currently being audited please connect with Intertek via our [Shared Audit Platform](#).

Audits are conducted in reference to cGMP, GDP, GLP & GCP, ISO 22716, ISO 13485, IPEC, EFfCI or other health standards

PLEASE BE AWARE This process takes several weeks and may be inconclusive if one of the parties refuses this purchase.

- ① The amount invoiced is shared between the initial customer and Intertek.
- ① Intertek is aware that European regulatory authorities are lenient but, depending on the country, the use of such a report may be subject to limits. This type of report may not be acceptable in the case of an inspection given that the audit was not carried out at your request and the report does not take your specific expectations into account.
- ① The price indicated refers to the sending of the audit report & its appendices. The CV of the auditor can be provided on requested, without adding any cost.
- ① The CAPA plan can be sent on request if available (the supplier sometimes sends it directly to the customer, or send a nominative one, which we cannot use for you). You can request your CAPA to the supplier directly.
