www.alpex.com

Alpex Pharma is a pharmaceutical company focused on the development and commercial manufacture of effervescent and rapidly dissolving ODT (fast melt) as well as extended release products.

Our predominant focus is the development of solid dosage forms to deliver drugs directly into the oral cavity in order to potentially improve both the bioavailability of the drug as well as patient compliance and convenience to it.

Effervescent Products

Fizzy and buffered solution

Orally Disintegrating Tablets

Mouth soluble tablets

Extended-Release Tablets

Prolonged release up to 12 hours

Effervescent Granular In Sachets

Ready soluble and dispersible

R&D Projects

Alpex Pharma has undertaken extensive development activities for third parties. It also identifies product opportunities and develops them internally for different third party clients.

High Quality Service Offering with Strong Oral Solids Technology Platforms

Design

Feasibility & Pre-Formulation

- API research and optimization of dosages, delivery and proof-of-concept

Develop

- Formulation & Product Development
- Manufacturing of clinical batches and clinical supply under GMP guidelines
- Proper dosage and delivery form identification
- Analytical development (chemistry and microbiology)
- Validation of the analytical methods
- Clinical supply
- Scaling-up
- Technology transfer
- Stability studies under ICH conditions
- Manufacturing of regulatory batches
- Regulatory packaging documentation
- Cleaning validation including microbiology
- Contract Lab for chemistry and microbiology

Commercialize

Product Registration & Global Regulatory Affairs

- Manufacturing of regulatory batches with regulatory support services throughout the product lifecycle

Commercial Manufacturing & Global Export

- Logistics and world-wide export of pharmaceutical products from Switzerland
- Global distribution networks established over the past 30 years: Europe, US, South America, Asia and Australia

Pharma Registered Products

Effervescent Tablets

Project	Strength	Dosage form	Indication
N-Acetylcysteine	200 mg & 600 mg	Effervescent Tablets	Mucolytic
Fentanyl Citrate	100-200-400-800 mcg	Buccal tablets	Analgesic (Narcotic)
Tramadol & Paracetamol	37.5 mg & 325 mg	Effervescent Tablets	Analgesic (Narcotic)
Paracetamol 1000	1000 mg	Effervescent Tablets	Analgesic NSAID
N-Acetylcysteine	0.5 g & 2.5 g	Effervescent Tablets	Paracetamol Poisoning
Phentermine HCl	15 mg, 30 mg & 40 mg	Extended Release	Obesity

Effervescent Granular Sachets

Project	Strength	Dosage form	Indication
Calcium & Vit D ₃	1000 mg & 880 IU	Effervescent granular	Osteoporosis
Macrogol 3350 & electrolytes	13'750 mg	Granular	Laxative
N-Acetylcysteine	600 mg	Granular	Mucolytic
Sevelamer	0.8 g & 2.4 g	Granular	Hypocalcemia

Orally Disintegrating Tablets (ODT)

Project	Strength	Dosage form	Indication
Meloxicam	7,5 mg & 15 mg	ODT	Arthritis
Phentermine HCl	15 mg, 30 mg & 37.5 mg	ODT	Obesity

Swiss boutique pharma company with more than 30 years experience

- Narcotics license for import, handling and export of controlled substances
- EMEA & FDA Approved | Swiss Medic EU-GMP Certified
- Global Exporter
