50+ Years in Contract Manufacturing

17+ Manufacturing & R&D Sites

Sterile Pharmaceuticals Expertise

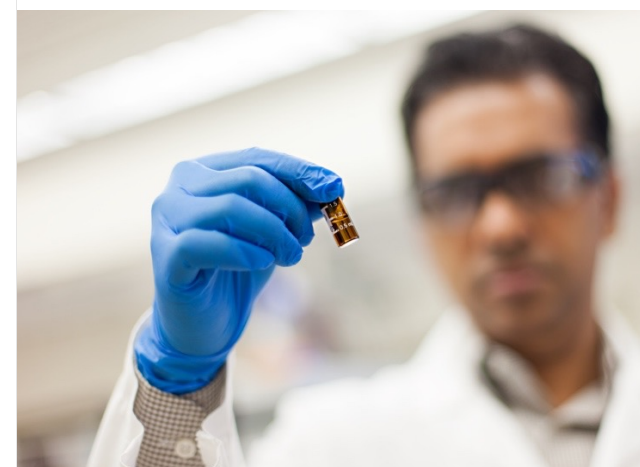

50+ Years in Contract Manufacturing

Over our many years of experience in contract development and manufacturing, we have developed a transparent and collaborative way of working. A dedicated team of experts will support you throughout the entire lifecycle of your product, from development through commercialization.

17+ Manufacturing and R&D Sites

You will have access to a global network of advanced development and manufacturing facilities. Together, we will determine the best technology and production site based on your requirements. An experienced project team of people from all disciplines will draw up a fully integrated development and qualification program that includes Quality & Compliance, Project Planning, Risk Management, Validations, Stability Studies and Regulatory Support.

Sterile Pharmaceuticals Expertise

Quality is an integral part of our day-to-day operations, our business strategy and our philosophy. We ensure compliance with all applicable national and international requirements. To optimize supply chain costs, we have built up a global manufacturing network offering products that fulfill the requirements in nearly any country or combination of countries in the world. We regularly undertake quality improvements across all operations and our facilities are run in strict compliance with international quality standards (cGMP, WHO-GMP, ISO, ANVISA, etc.).
