

# **ACDIMA International Trading Company Profile**

## Our History

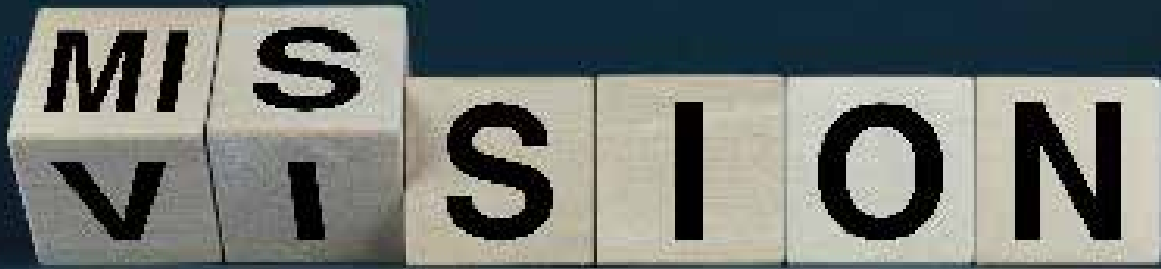

**ACDIMA International** is one of the fastest growing Pharmaceutical Company in Egypt with unique products having its corporate headquarters office and Marketing Department office located at El-Mohandessen Giza/ Egypt, and the manufacturing facility in the industrial Zone no.6, sixth of October / Egypt.

**ACDIMA International** began its journey in 2002 and the state of art manufacturing facility started in the year 2015.

**ACDIMA International** factory was fully established in the beginning of 2017, and it is two separate factories completely according to the requirements of the WHO :

**Aerosol Factory:** Specializes in the production of pressurized and non-pressurized medical aerosols in the form of powder, liquid or foam.

**Hormone Factory:** Specializes in the production of hormones in the form of tablets, ampoules and vials.

## Our vision

AIT aims to become the strongest arm supporting the Egyptian pharmaceutical industries through expanding our organizational capabilities to capture the local and global markets.

## Our mission

We believe that the greatest wealth is health so we aim to keep our customer wealthy, feel better and live healthier by successfully securing strategic pharmaceutical products through effective, self-sufficient, ever improving quality and reasonably priced products that meet or exceed our customer's expectations and improve the quality of our community's life.

## CEO Message

**We believe that the greatest wealth is health, as our mission is to keep you wealthy.**

Since the beginning of our operations (2002), we have incorporated "the principle of health" into our corporate culture, by choosing safe tested products with proven therapeutic value to provide the best possible care to society at the lowest cost.

The company has moved beyond the start-up to the leading pharmaceutical company by adopting new technology that creates a new era in the healthcare industry, your health is our only priority.

**So we can say that we are  
a Wealth Keeper.**

## Our Policy

AIT recognizes its responsibility and commitment to provide high quality pharmaceutical products, which are safe, effective, stable and fully meet regulatory body's requirements and customer needs through the following:

- Define and communicate customer requirements to all employees.
- Create and maintain an effective communication and participation environment that encourages our customers, suppliers, and employees to achieve requirements.
- Create and maintain an attitude of preventing defects related to product, customer and employees and influencing their health, safety and environment as well.
- Ensure that quality, safety and environment are every employee's responsibility.
- Comply with ISO 9001, ISO 14001, ISO 45001 & cGMP requirements for pharmaceutical products.
- Comply with relevant national laws and EDA regulations.
- Setting objectives that support continual improvement and ensure effectiveness of the Quality and safety Management System.
- Providing the adequate resources and trained workforce to achieve the quality and HSE objectives.
- Ensure that the policy is well communicated and understood inside and outside the organization.
