Marketing of Medicines MAH Laboratory

We are authorised as a laboratory with our **own products**.

In addition, we are **Local Representative** for other EU **MAH** laboratories.

Supply of medicines in special situations (MSE)

We are listed as a **trusted importer by the Spanish Agency of Medicines and Health Products** as we are specialised in the importation of medicines in **Special Situations**.

This ensures the **continuity of the supply chain** and avoids disruptions in treatment.

Consultancy

Experts in pharmaceutical advice

To ensure **compliance with the high quality standards in the EU**, we offer our partners and customers an **advisory and support** service.

We have the necessary **experience** for the development of Quality Systems (SOPs and SOPs), Pharmacovigilance, continuous training, custody, conservation and storage of products, as well as for the registration and resolution of customer complaints.

Registration of medicines

The knowledge acquired over the years in different markets makes us **experts in the registration of pharmaceutical products** in an agile and effective manner.

This ensures a continuous supply of products to those territories with the greatest need, increasing the turnover of our partners.

Engineering

We adapt to every need

We cover **healthcare projects from start to finish**, starting with **design, construction** and **refurbishment**, through **equipment, installation** and **commissioning**, to **maintenance** and **training** of the staff involved.

Projects turnkey turnkey projects

Specialised in healthcare projects, including *consulting & engineering* plans, construction, refurbishment, equipment, installation, commissioning and maintenance of the project, under our **"turnkey" modality**. Hospitals and Health Centres, Pharmaceutical Plants, Distribution Warehouses, Quality Control Laboratories.
