

# TRIGON BIOTECHNOLOGY CPLC

# About us

- Founded in 1992
- Organized to develop medicines by biotechnological methods
- First Hungarian supplier of high quality natural, multispecies alfa-interferon products
- Capacity for testing interferons (using tissue culture method and also ELISA tests)

**Trigon Biotechnology CPLC**

**+36701980282**

**trigon@trigon.hu**

**Hungary 1115 Budapest, Bank Ban Street 6.**

**Trigon Biotechnology CPLC**

trigon@trigon.hu

Hungary 1115 Budapest, Bank Ban Street 6.

# Services

- Protein chemistry
- Separation of bioactive molecules
- Analysis
- Down-stream processing
- Contract manufacturing, including samples for clinical trials

**Compliance with cGLP and cGMP guidelines**

# Products

## Egiferon gel alfa-interferon human

5

1 x 10<sub>6</sub> IU IFN alfa in 2g gel

1 x 10 IU IFN alfa in 20g gel

For the treatment of

- *Herpes simplex labialis,*
- *Herpes simplex genitalis,*
- *Verruca vulgaris,*
- *Verruca plana juvenilis.*

# Products

## Gold nanoparticles Under CGMP

**Size:** 1 to 100 nanometers

In therapy, gold nanoparticles can be used for targeted drug delivery or as agents for photothermal cancer treatment.

Gold nanoparticles are opening new dimensions in medicine, from more accurate diagnostics to innovative therapies.

# Products

## Natural Human Interferon- $\alpha$ protein

**Size:**  $\geq 5 \times 10^5$  IU IFN/ml.

**Volume:** 1 mL or 2 mL (Bulk quantities available upon request.)

The Human Interferon Alfa 2b API offers exceptional value and versatility for diverse pharmaceutical, biotechnological, research applications and for pharmaceutical and homeopathic drug development.
