One hundred years from now,
It will not matter,
What kind of car I drove,
What kind of house I lived in,
How much I had in my bank,
Nor what my clothes looked like.
One hundred years from now,
It will not matter
What kind of school I attended,
How large or small my church is.
But the world may be
A little better because...

...I was important
in the life of a child.

*Every life
deserves joy*
