NEELKANTH FINECHEM LLP

Glytalc®

Purified Talc

Neelkanth Finechem LLP's Purified, micronised Natural **Glytalc®** Talc Powders are perfect natural ingredients for your pharma, food, cosmetic & personal care formulations.

Glytalc® Talc products are available in various particle sizes, bulk density, brightness and customized packings.

Neelkanth Finechem LLP's **Glytalc®** comes in a wide range for all your needs, whether you are looking for a perfect glidant, a excellent process aid for anti-caking, a natural emulsifier, an inert filler, a release agent, an absorbent, an antiadherant - a suitable grade is always available in our product range.

Our high quality **Glytalc®** talcs act as glidants & lubricants for compressed tablets and coated products, and can also be used as carriers for medicated topical powders.

Processed at dedicated food and pharmaceutical processing facility licensed by Drug Control Organization of India and The Food Safety and Standards Authority of India (FSSAI) according to Good Manufacturing Practices (GMP) Neelkanth Finechem LLP's **Glytalc®** range exceeds industry standards in terms of purity which complies with BP / USP / EP / JP / IP / FCC / FSSAI
