PRE-STERILIZED AUTOCLAVABLE BIOHAZARD BAGS

Keystone Cleanroom Products Gamma Irradiated Biohazard Bags are useful to decontaminate waste or potentially hazardous materials that are exiting the aseptic production area through the autoclave.

The irradiated biohazard bags eliminate the introduction of contamination into the aseptic production area..

TYPICAL APPLICATION & CHARACTERISTICS:

- Packaged in an ISO6 certified Cleanroom
- Strong, 2 mil clear polypropylene
- Validated Sterile to a 10^{-6} SAL
- **Autoclavable up to 135° C (275° F)**
- Certificates of Conformance and Sterility sent with each shipment
- Conveniently packaged in Tyvek®/Mylar chevron peel pouches: 1, 2, 5 or 10 per pack configurations
- Made in USA
