Progress through Partnerships...

API PRODUCT LIST

- ⇒ Acenocoumarol
- ⇒ Amlodipine Besylate
- ⇒ Amphotericin B Injection Grade
- ⇒ Avanafil
- ⇒ Azithromycin Dihydrate
- ⇒ Chloramphenicol
- ⇒ Chloramphenicol Palmitate
- ⇒ Clarithromycin
- ⇒ Dapoxetine Hcl
- ⇒ Erythromycin
- ⇒ Erythromycin Estolate
- ⇒ Erythromycin Ethyl Succinate
- ⇒ Erythromycin Phosphate
- ⇒ Erythromycin Stearate
- ⇒ Flibensarin
- ⇒ Fluphenazine Decanoate
- ⇒ Fluticasone Propionate
- ⇒ Gramicidin
- ⇒ Molnupiravir
- ⇒ Nirmatrelvir * New Drug
- ⇒ Ofloxacin
- ⇒ Oxytetracycline
Dihydrate (Inj Grade)
- ⇒ Oxytetracycline Hcl (inj Grade)
- ⇒ Palonosetron Hcl
- ⇒ Phenyl Butazone
- ⇒ Pregabalin
- ⇒ Rosuvastatin Calcium

- ⇒ Roxithromycin
- ⇒ Sevelamer Carbonate
- ⇒ Sevelamer Hydrochloride
- ⇒ Sildenafil Citrate
- ⇒ Sitagliptin Phosphate Monohydrate
- ⇒ Sofosbuvir
- ⇒ Tadalafil
- ⇒ Tetracycline Hcl
- ⇒ Tiapride
- ⇒ Vardenafil Hcl Trihydrate
- ⇒ Vildagliptin

Vit D Derivatives

- ⇒ Calcitriol
- ⇒ Alfacalcidol
- ⇒ Calcipotriol

Anti Glaucoma

- ⇒ Bimatoprost
- ⇒ Carboprost Tromethamine
- ⇒ Latanoprost
- ⇒ Latanoprostene Bunod
- ⇒ Misoprostol
- ⇒ Nor Bimatoprost
- ⇒ Tafluprost
- ⇒ Travoprost

Ophthalmic

- ⇒ Dorzolamide Hcl
- ⇒ Brinzolamide

Committed to manufacture and market Active Pharmaceutical Ingredients

Highlights :

- Established in 1982
- Recorded Steady Growth
- Exporting APIs Since 1989
- Efficient Quality Control
- Product characteristics verification with GC & HPLC
- DMFs
- Pollution Free Plant, Zero Liquid Discharge
- Synergistic (Approach)

Certifications :

ISO 9001, ISO 14001, ISO 18001, GMP, GLP & WHO GMP approved, Written Confirmation "GOLD" Certification Under ZED Scheme

Awards :

- Rajiv Gandhi Excellence Award - For our excellence in quality of our products.

Facility :

- cGMP qualified facility at Halol, India for the manufacturing of APIs.
- State of the art research laboratory for contract research, contract manufacturing services for APIs and Biotechnology products.
- Upgraded facility capable of handling different projects under complete exclusivity and confidentiality

Features :

- cGMP qualified API Plant as per USFDA guidelines
- Process development facility
- Analytical studies facility
- Technology Transfer capability
- Pilot Plant facility for advanced molecules
- Skilled R & D scientists
- Providing low cost manufacturing and develop alternatives.

Contract Manufacturing

BIOTECHNOLOGY RESEARCH & DEVELOPMENT

Fce- Apoptotic Fusion proteins for the treatment of Asthma & Allergy

- ⇒ The Project aims at developing recombinant protein for treatment of asthma, allergic diseases.
- ⇒ The targeted apoptosis platform technology is deployed in the development of the drug candidate.
- ⇒ We are Looking for a strategic partner who will join us to co develop NBE and market the product.
- ⇒ The drug is a fusion protein consisting human IgE receptor binding domain which is a targeting moiety and apoptotic proteins, causes the apoptosis of the targeted mast cell.
- ⇒ The technology can be explored to all signal and receptor mediated diseases.

"STEM CELL" the one answer for many chronic diseases.

- ⇒ We are the pioneer Indian pharmaceutical company involved in the stem cell research.
- ⇒ We have DCGI/FDCA approved GMP facility for stem cell manufacturing.
- ⇒ Pass-through results by adopting GMP protocols and regulatory norms of products as expected by Experts and national auditors of DCGI/FDA in our facility.
- ⇒ The manufacture of quality stem cells for clinical applications.

Contract service facility :

- ⇒ Designed and equipped to take up projects related to development of processes and analytical methods for recombinant and non recombinant therapeutic proteins for diagnostic and drug discovery research applications.

Biotech contract research services :

- ⇒ Century Pharmaceuticals Ltd. has inhouse capabilities to provide a gamut of services for the Indian scientists.
- ⇒ We guarantee 100% satisfaction and provide in-house technical support.
- ⇒ Custom manufacturing of proteins or marker proteins as purified reagents for manufacturing of diagnostic kits for diseases, metabolic disorders and cancer as per client SOPs or custom made protocols operating under the vigilance of NDA.

Analytical services offered :

- ⇒ Process development (fermentation 20 litre scale for microbial products)
- ⇒ Protein analysis (PAGE, Western blot, HPLC analysis).
- ⇒ In vitro cell based bioassay (Cytotoxicity, Growth inhibition potency, cytokine expression and Inhibition Immunological assays, ELISA Fluorescence assays).
- ⇒ Impurity protein profiling.

Core strengths :

- ⇒ Process and analytical development for biosimilar and novel proteins.
- ⇒ Product development & Assay development.
- ⇒ In vitro screening for inflammation, cancer, allergy, asthma therapeutic areas and anti infectives.
- ⇒ In vivo infective models systemic, thigh infection, intra nasal model.

Research personnel :

- ⇒ Professionals with adequate research experience spanning different fields or biotechnology, Pharmaceutical drug discovery research and development, protein purification, fermentation, cell culture, molecular biology and analytical biochemistry.

Products under development

- ⇒ Nutritional supplements : Metabolic Regulators
- ⇒ Veterinary Food supplements : Digestive Enzymes.
- ⇒ Proteolytic Enzyme: Serrapeptidase
