

Your Trusted Partner in Pharmaceutical Ingredients

At **CD Formulation**, our mission is to empower research institutions and companies with top-notch pharmaceutical excipients and active pharmaceutical ingredients (APIs), enabling them to develop safe and effective medicines that enhance the quality of life. With a strong focus on innovation, quality, and regulatory compliance, we serve as your reliable partner in the pharmaceutical industry.

→ Our Product Range

- Active Pharmaceutical Ingredients (APIs)

We source our APIs from certified manufacturers, guaranteeing purity, consistency, and adherence to global standards. Our diverse API selection includes amino acid, anti-tumor, antibacterial, anti-inflammatory, antiviral, cardiovascular, and hormone series, addressing a wide spectrum of therapeutic categories. This empowers our clients to develop state-of-the-art pharmaceutical formulations.

Listed below are our featured APIs, available for immediate global shipping:

Cat.No.	Product Name	CAS No.	Category
PAP-0033	β -Alanine	107-95-9	Amino Acid Series
PAP-099	5-aza-2'-deoxycytidine triphosphate	72052-96-1	Anti-tumor Series
PAP-0096	Ceftriaxone Sodium Sterile	104376-79-6	Antibacterial, Anti-inflammatory and Antiviral Series

Cat.No.	Product Name	CAS No.	Category
PAP-0097	Meropenem Sodium Carbonate	96036-03-2	Antibacterial, Anti-inflammatory and Antiviral Series
PAP-0098	Gentamicin sulfate	1405-41-0	Antibacterial, Anti-inflammatory and Antiviral Series
PAP-0101	milrinone	78415-72-2	Cardiovascular Series
PAP-0071	Heparin Sodium	9041-08-1	Cardiovascular Series
PE-0089	Vitamin C	50-81-7	Other Active Pharmaceutical Ingredients
PE-0317	Calcitriol, Vitamin D3	67-97-0	Other Active Pharmaceutical Ingredients
PAP-0091	Montmorillonite	1318-93-0	Other Active Pharmaceutical Ingredients
PAP-0095	CALCIUM GLYCEROPHOSPHATE	27214-00-2	Other Active Pharmaceutical Ingredients
PAP-0100	Farnesoic acid/(2E,6E)-3,7,11-Trimethyldodeca-2,6,10-trienoic acid	462-11-3	Other Active Pharmaceutical Ingredients

- Pharmaceutical Excipients

We understand the importance of excipients in drug formulation. **CD Formulation** offers a wide array of pharmaceutical excipients, encompassing binders, fillers, disintegrants, and more. These cater to both conventional dosage forms (e.g., liquid, injections, solid, and semi-solid) and emerging dosage forms (including sustained and controlled release materials, transdermal drug delivery systems materials, mucosal drug delivery systems materials, and micro-drug delivery systems materials). Our excipients are meticulously crafted to improve drug stability, bioavailability, and patient compliance.

Listed below are our featured pharmaceutical excipients, available for immediate global shipping:

Cat.No.	Product Name	CAS No.	Category
PE0364	Calcium silicate	1344-95-2	Adsorbents
PE0382	Kaolin	1332-58-7	Adsorbents
PE-0087	Sodium sulfate	7757-82-6	Antioxidants
PE-0096	Propyl Gallate	121-79-9	Antioxidants
PE-0093	Citric acid	77-92-9	Antioxidants; pH Modifier Excipients
PE-0460	Lactose Monohydrate	5989-81-1	Binder Excipients
PE-0146	Starch	9005-25-8	Binder Excipients; Diluent Excipients; Disintegrants Excipients

Cat.No.	Product Name	CAS No.	Category
PE-0250	Dimethicone	9006-65-9	Cooling Agents
PE0385	Calcium chloride anhydrous	10043-52-4	Desiccants
PE-0673	Calcium chloride dihydrate 77%	10035-04-8	Desiccants
PE-0646	Soybean Oil (For Injection)	8001-22-7	Dispersion Excipients
PE-0252	PEG 6000	25322-68-3	Drop Pill Base
PE-0542	Sodium Citrate Dihydrate	6132-04-3	Emulsifier Excipients
PE-0584	Hydrogenated rosin glyceride	65997-13-9	Emulsifier Excipients
PE-0112	Egg yolk lecithin	93685-90-6	Emulsifier & Suspending Agents
PE-0315	Cholesterol	57-88-5	Emulsifier Excipients; Micro-drug Delivery Systems Materials
PE-0676	Riboflavin 5'-Monophosphate Sodium Salt	130-40-5	Excipients
PE-0003	Aspartame	22839-47-0	Flavoring Agents
PE-0414	Clove Oil	8000-34-8	Flavoring Agents
PE0400	Butylene Glycol	107-88-0	Humectants Excipients
PE-0668	Polyethylene Glycol 1500	25322-68-3	Humectants Excipients
PE-0669	Polyethylene Glycol 1000	25322-68-3	Humectants Excipients
PE-0670	Polyethylene Glycol 300	25322-68-3	Humectants Excipients
PE-0671	Polyethylene Glycol 400	25322-68-3	Humectants Excipients
PE-0672	Polyethylene Glycol 6000	25322-68-3	Humectants Excipients
PE-0674	sodium hyaluronate	9067-32-7	Humectants Excipients
PE-0081	Glycerin	56-81-5	Humectants Excipients; Lyophilization Reagents
PE-0013	Polysorbate 80/Tween 80	9005-65-6	Humectants Excipients; Emulsifier & Suspending Agents; Plasticizer Excipients; Lubricant Excipients
PE-0241	Beta-cyclodextrin	7585-39-9	Inclusion Compounds
PE-0119	D-mannitol	69-65-8	Lyophilization Reagents; Diluent Excipients
PE-0678	PLGA microsphere excipient	26780-50-7	Micro-drug Delivery Systems Materials
PE-0051	Benzoic acid	65-85-0	Preservatives Excipients
PE-0647	Chlorbutanol Hemihydrate	6001-64-5	Preservatives Excipients

➔ Why Choose CD Formulation?

- **Quality Assurance:** Our APIs and excipients undergo rigorous quality control measures to ensure purity, safety, and efficacy.
- **Regulatory Compliance:** We are committed to regulatory compliance, ensuring that our products meet the stringent requirements of global regulatory bodies, including the FDA and EMA.
- **Innovation:** We continuously explore new solutions and technologies to stay at the forefront of the pharmaceutical industry. Our innovative products enable you to stay competitive and meet evolving market demands.
- **Customization:** We understand that each pharmaceutical project is unique. CD Formulation offers tailored solutions to meet your specific formulation and production needs.
- **Technical Support:** Our team of experienced professionals is available to provide technical support and expertise, helping you overcome formulation challenges and optimize your processes.

With a commitment to quality, innovation, and sustainability, **CD Formulation** is your go-to source for pharmaceutical excipients and APIs. Partner with us to unlock your potential and bring safer, more effective medications to patients worldwide. We understand the importance of product testing and development. That's why we offer free samples of some products so you can evaluate their suitability for your specific application. If you can't find the excipient or API you need, please do not hesitate to contact us.
