Tear cut

## VhentPeel® VENT BAG FOR ETHYLENE OXIDE STERILISATION AND FOR IRRADIATION STERILISATION

### EASY TEAR: TEAR CUT FOR AN EASY OPENING OF THE POUCH

Our innovative VhentPeel® Vent Bag Easy Tear has a tear cut on each side that allows an easy opening of the pouch alongside the defined tear line. This VhentPeel® high strength film pouch with a breathable gas membrane is specially designed for procedure kits or sterile sets.

### FEATURES

- tear cut on each side enables easy opening of the VhentPeel® pouch alongside the defined tear line
- high-strength 100 micron polyethylene film
- DuPont™ Tyvek® with good gas permeability
- specific customer printing available
- manufacturing process and materials according to DIN EN ISO 11607

### APPLICATIONS

THIS VhentPeel® STERILE BARRIER SYSTEM IS IDEAL FOR LARGE VOLUME PRODUCTS SUCH AS

- procedure kits
- sterile sets

### STERILISATION METHODS

- ethylene oxide
- irradiation

### SAFETY AND QUALITY IN MEDICAL PACKAGING - MADE IN GERMANY

The quality of all our products is intimately connected with the continuously rising demands on hygiene and medical technology. Therefore, all our products meet or exceed European and international standards. The management systems of Vereinigte Papierwarenfabriken GmbH has been assessed and certified as meeting the requirements of EN ISO 13485:2016 for design, development, manufacturing and sales of medical packaging systems. We maintain our leadership with a department for development and applications, a branch for development and production of indicators, comprehensive quality management and consistent in-process control.
