

Your Trusted Partner in **Medical Device Manufacturing**

Drug Delivery

Minimally Invasive Surgery

Robotic Assisted Surgery

Our Advanced Surgical Division specializes in soft tissue technologies or devices for diagnosis, patient care, treatment, or improvement of a person's health. The Advanced Surgical group offers diverse manufacturing capabilities that are uniquely equipped to serve markets spanning robotic assisted surgery, minimally invasive surgery, drug delivery, and many others.

Supporting you from **concept to commercialization**

Design & Development Services

- Product conceptualization or redesign
- Rapid prototyping
- DFM and feasibility testing

Production Services

- Process optimization, qualification, and equipment validation
- Precision manufacturing
- Assembly and kitting
- Drug handling
- Cleanroom assembly, packaging, and sterility management

Commercialization Services

- Regulatory support
- Finished device labeling
- Design history file creation
- Global scalability
- Supply chain management
- Supply, Inventory, and Operations Planning - SIOP

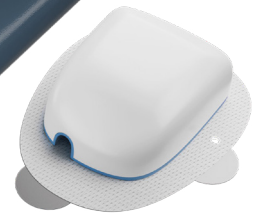

■ Minimally Invasive Surgery

- Laparoscopes
- Endoscopes
- Clip Appliers
- Biopsy Devices
- Suture Passer Devices
- Ligation Devices
- Electrocautery Devices
- Catheters
- Staple Cartridges

■ Robotic Assisted Surgery

- Robotic Instrumentation
- End Effectors:
 - Dissectors
 - Graspers
 - Needle Drivers
 - Clip Appliers
 - Retractors
 - Scissors

■ Drug Delivery

- Autoinjectors
- Pen Injectors
- Jet Injectors
- Patch or Traditional Pumps
- Inhalers
- Eye Droppers
- Nasal Droppers

■ General

- Springs
- Surgical Staples
- Ligation Clips
- Stampings
- Surgical Blades
- Medical Electrical Contacts
- Micro-Coiled Springs
- Tubes
- Needles

About Paragon Medical

In today's challenging healthcare environment, you're looking for a contract manufacturer to help simplify the complexities of supply chain and expedite commercialization. As your trusted partner with a shared commitment to quality, you will feel confident as we come alongside to serve as an extension of your team by delivering world class operational excellence and SIOP planning through over a century of combined expertise in high-precision manufacturing, advanced engineering, and design support.

You can count on Paragon Medical as your strategic partner in medical device manufacturing, offering an end-to-end supply chain solution from initial concept and product development, to verification and validation testing, to final production, assembly, and ongoing strategic demand planning. Discover how you can experience a consistently remarkable partnership through Paragon Medical's differentiated and personalized solutions designed to exceed your expectations every time.

We have **one purpose**...to serve you!

Registrations & Certifications:

- FDA Registered
- FMA Japan Registered
- ITAR Compliance
- ISO 13485
- MDSAP
- EU MDR
- ISO 9001:2015
- AS9100D
- CE Marking
- Class 7 & 8 Cleanrooms
