## WHY CHOOSE US?

- We are India's largest manufacturer of Mefenamic Acid with a production capacity of 900 MT/annum. We are currently undergoing expansion to increase the capacity to 1800 MT/annum to comply with various regulatory bodies.
- We are a rapidly growing Indian pharmaceutical company, known for high-quality APIs and intermediates.
- With modern equipment, high standard of WHO – CGMP & ISO 9001 : 2015 and Excellent compliance track record resulting from multiple inspections by various regulatory bodies.

## STATE OF THE ART MANUFACTURING FACILITIES

- At the forefront of pharmaceutical innovation, we proudly stand as an upscale producer of Active Pharmaceutical Ingredients, housed within ultra-modern installations designed to revolutionize wellness and patient care.
- **Nira Life Sciences Pvt. Ltd.** has advanced manufacturing facilities, uses cutting-edge technology, follows best practices and complies with strict regulations. Our production team, composed of qualified Chemical Engineers and Postgraduates are dedicated to producing top-quality products.

## QA, QC & MICRO LABS

- Our quality control facility has separate chemical, instrumental and microbiology laboratories equipped with sophisticated instruments for precise analysis.
- Our QA team monitors the effectiveness of quality systems at our manufacturing sites and ensures compliance with the regulatory requirements of different countries.

## R & D

- At **Nira Life Sciences Pvt. Ltd.**, R&D is a major strength. We have a highly skilled team of and postgraduates that is committed to developing a range of APIs for positively impacting health, doctorate well-being and cost-effectiveness. We are leveraging our industry expertise and success to fuel extensive research to expand the development of our specialty products.
