

Chemistry & Health FZ LLC

Dubai, UAE

Introduction

- ❑ **Chemistry & Health is founded in 2016 & registered out of Philadelphia, USA with a purpose to provide expertise and support in multiple segments within the Pharmaceutical Space.**
- ❑ The company has invested heavily in some of the leading **“US based Generic pharma”** companies producing niche dosage forms especially in Dermatology.
- ❑ C&H is embracing the future of diagnosis of the diseases through Biotechnology hence the company **has “investments in US based Biotechnology company”** heavily working in Custom Synthesis including ADCs, pay load linkers and oligo/nucleosides, flow chemistry and process development.
- ❑ API's Supply Chain is an integral part of any pharmaceutical company hence C&H is providing **“access to latest Generation molecules”** through their Global Partners based out of mainly **Europe & Taiwan. All our supply chain comes from USFDA & EDQM approved sites.**
- ❑ C&H is also involved in providing technical services in Finished Dosage Forms **through “In licensing & Out licensing of Dossiers”** from the leading European & American Generic producers.
- ❑ C&H API portfolio shall help customers to file **“Paragraph IV, FTF, NDA and ANDA filings”** through supply partnerships.
- ❑ Recently Chemistry & Health expanded their operations in MENA through the **“representative office in Dubai Science Park”** taking advantage of Dubai as a strategic Supply Chain hub.
