Proven pen technology

Designed for simplicity and value

Handling

- Contrasty dose display for good readability even for visually impaired patients.
- Cartridge holder with bayonet connection and sliding lead screw makes changing the cartridge quick and easy.
- Dial and dose handling concept ensuring a high level of patient acceptance and minimal training effort.
- Audible and tactile feedback during dosing, dose correction and delivery intended to enhance patient confidence.
- Post-injection remaining dose indication ensuring correct dosing up to the last unit.

Dose dialing by twisting is intuitive and easy. The gearing mechanism allows large, easy to read, printed numbers.

Customisation and manufacturing

- Attractive pricing to successfully compete in an increasingly cost sensitive market
- Robust design to minimize complaint rates and allow a pen lifetime of 3 years
- Off the shelf device easily customised for your drug

Ypsomed®

Design and customisation

Your drug deserves a unique presentation

The Ypsomed® can be customized with different colours for the pen cap and housing and with customer specific printing. Ypsomed® is available in two different shapes/industrial designs.

Dimensions and specifications

Facts and figures
